

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: John Klinge  
DOCKET NO.: 20-01995.001-R-1  
PARCEL NO.: 16-03-107-010

The parties of record before the Property Tax Appeal Board are John Klinge, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago, and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$166,172  
**IMPR.:** \$353,655  
**TOTAL:** \$519,827

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a two-story dwelling of brick exterior construction with 5,435 square feet of living area. The dwelling was constructed in 1989 and is 31 years old. Features of the home include a basement with finished area, central air conditioning, three fireplaces, and a 910 square foot garage. The property has an approximately 31,680 square foot site and is located in Lake Forest, Moraine Township, Lake County.

The appellant contends assessment inequity concerning the improvement assessment as the basis of the appeal; no dispute was raised concerning the land assessment. In support of this argument the appellant submitted information on four equity comparables improved with one-story to two-story homes of brick, stucco, or wood siding exterior construction ranging in size from 5,028 to 5,791 square feet of living area. The dwellings were built from 1984 to 1992 and are from 28 to 36 years old. The homes each have a basement, with three of the comparables having finished

basement area, central air conditioning, one to four fireplaces, and a garage ranging in size from 672 to 1,131 square feet of building area. The comparables are located from 0.15 to 0.20 of a mile from the subject property and within the same assessment neighborhood code as the subject property. The comparables have improvement assessments ranging from \$299,604 to \$324,439 or from \$51.74 to \$63.97 per square foot of living area. Based upon this evidence, the appellant requested the subject property's improvement assessment be reduced to \$318,844 or \$58.66 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$536,452. The subject property has an improvement assessment of \$370,280 or \$68.13 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on five equity comparables improved with two-story dwellings of brick, dryvit and stone, wood siding, or brick and wood siding exterior construction and ranging in size from 4,895 to 5,520 square feet of living area. The dwellings were built from 1988 to 1995, with the comparable built in 1995 having an effective age of 2003. The homes each have a basement with finished area, central air conditioning, two to four fireplaces, and a garage ranging in size from 737 to 864 square feet of building area. One of the comparables has an inground swimming pool. The comparables are located from 0.06 to 0.21 of a mile from the subject property and within the same assessment neighborhood code as the subject property. The comparables have improvement assessments ranging from \$347,845 to \$373,635 or from \$65.07 to \$71.79 per square foot of living area. Based upon this evidence, the board of review requested confirmation of the subject property's assessment.

### **Conclusion of Law**

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did meet this burden of proof and a reduction in the subject's assessment is warranted.

The record contains a total of nine comparables for the Board's consideration. The Board gives less weight to the appellant's comparable #2 and the board of review's comparables #1 and #2, due to differences in basement finish, inground swimming pool amenity, and/or effective age when compared to the subject.

due to its lack of finished basement area which the subject features. The Board gives less weight to the, due to its inground pool which the subject does not have. which has a much newer home than the subject dwelling.

The Board finds the best evidence of assessment equity to be the appellant's comparables #1, #3, and #4 and the board of review's comparables #3, #4, and #5, which are similar to the subject in

dwelling size, age, location, and most features. These comparables have improvement assessments that range from \$299,604 to \$365,050 or from \$51.74 to \$68.92 per square foot of living area. The subject's improvement assessment of \$370,280 or \$68.13 per square foot of living area falls above the range established by the best comparables in terms of total improvement assessment but within the range on a per square foot basis. The board of review's comparable #4 is most similar to the subject and has an improvement assessment of \$357,681 or \$65.07 per square foot of living area. Based on this record, and after considering appropriate adjustments to the best comparables for differences, the Board finds the appellant did demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
