

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Anthony Greis
DOCKET NO.: 20-02085.001-R-1
PARCEL NO.: 16-34-101-023

The parties of record before the Property Tax Appeal Board are Anthony Greis, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$99,870
IMPR.: \$177,360
TOTAL: \$277,230

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of brick exterior construction with 3,695 square feet of living area. The dwelling was constructed in 1967 and is approximately 53 years old but has an effective age built of 1974 due to remodeling done in 2013.¹ The home features an unfinished basement, central air conditioning, a fireplace, and an attached garage containing 462 square feet of building area. The property has a site measuring approximately 19,423 square feet and is located in Deerfield, Moraine Township, Lake County.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted a grid analysis containing information on four equity comparables located in the same assessment neighborhood code as

¹ Some descriptive information such as effective year built and remodeling was drawn from the subject's property record card submitted by the board of review and not refuted by the appellant.

the subject property. The comparables consist of 2-story homes of brick, vinyl, or wood siding exterior construction that range in size from 3,104 to 3,911 square feet of living area. The homes range in age from 52 to 56 years old. Each home features an unfinished basement, central air conditioning, a fireplace, and an attached or a detached garage ranging in size from 441 to 630 square feet of building area. The comparables have improvement assessments that range from \$138,907 to \$171,058 or from \$43.74 to \$44.83 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$277,230. The subject property has an improvement assessment of \$177,360 or \$48.00 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on three equity comparables located in the same assessment neighborhood code as the subject property. The comparables consist of 2-story dwellings with brick or brick and wood siding exteriors ranging in size from 3,235 to 4,088 square feet of living area. The comparables were built in 1967 or 1968 with comparables #2 and #3 having effective ages built of 1975 and 1985, respectively. Each comparable features a basement, one with finished area. Each comparable also features central air conditioning, one or two fireplaces, and an attached garage containing either 462 or 484 square feet of building area. Comparable #2 also features an inground swimming pool. The comparables have improvement assessments ranging from \$156,574 to \$207,794 or from \$47.91 to \$53.35 per square foot of living area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds that the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of seven equity comparables with varying degrees of similarity to the subject in support of their positions before the Property Tax Appeal Board. The Board gave less weight to appellant's comparable #3 due to its significantly smaller dwelling size relative to the subject. The Board also gave less weight to board of review comparable #2 due to its finished basement area unlike the subject's unfinished basement, and an inground swimming pool, a feature that the subject property lacks.

The Board finds the remaining comparables to be most similar to the subject in location, age, dwelling size, finished basement area, and most features. The best comparables in this record have improvement assessments ranging from \$154,846 to \$172,594 or from \$43.74 to \$53.35 per square foot of living area. The subject's improvement assessment of \$177,360 or \$48.00 per square foot of living area is slightly above the range established by the most similar comparables

in this record in terms of overall improvement assessment and within the range on a per square foot of living area basis. Based on this record, and after considering adjustments to the best comparables for differences from the subject such as age, dwelling sizes, and remodeling, the Board finds that the appellant did not prove by clear and convincing evidence that the subject improvement is inequitably assessed and, therefore, no reduction is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
