

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Steve Keller
DOCKET NO.: 20-02148.001-R-1
PARCEL NO.: 16-23-102-008

The parties of record before the Property Tax Appeal Board are Steve Keller, the appellant, by attorney Robert Rosenfeld of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$62,343
IMPR.: \$168,163
TOTAL: \$230,506

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of brick exterior construction with 3,284 square feet of living area. The dwelling was constructed in 1996 and is approximately 24 years old. Features of the home include an unfinished basement, central air conditioning, a fireplace and a 500 square foot garage. The property has an approximately 9,450 square foot site and is located in Highland Park, Moraine Township, Lake County.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables with the same assessment neighborhood code as the subject. The comparables are improved with 1.8-story and 2-story dwellings of brick, wood siding or Dryvit exterior construction ranging in size from 3,106 to 3,488 square feet of living area. The dwellings range in age from 22 to 55 years old. The comparables each have a full basement, three of which have

finished area. Each comparable has central air conditioning, one to three fireplaces and a garage ranging in size from 528 to 576 square feet of building area. The comparables have improvement assessments that range from \$129,771 to \$175,480 or from \$41.78 to \$50.31 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$151,433 or \$46.11 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$230,506. The subject property has an improvement assessment of \$168,163 or \$51.21 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four comparables with the same assessment neighborhood code as the subject. Board of review comparable #4 is the same property as the appellant's comparable #2. The comparables are improved with 2-story dwellings of wood siding or Dryvit exterior construction ranging in size from 3,234 to 3,632 square feet of living area. The dwellings were built from 1995 to 2004. The comparables each have a full basement, three of which are finished with a recreation room. Each comparable has central air conditioning, one or two fireplaces and a garage ranging in size from 420 to 580 square feet of building area. The comparables have improvement assessments that range from \$136,980 to \$240,754 or from \$42.36 to \$67.51 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains a total of seven suggested equity comparables for the Board's consideration, as one comparable is common to both parties. The Board has given less weight to the appellant's comparables #1, #2 and #3, as well as board of review comparables #1, #2 and #4 as each comparable has a finished basement, unlike the subject's unfinished basement. Furthermore, the appellant's comparable #3 is older in age when compared to the subject dwelling.

The Board finds the best evidence of assessment equity to be the appellant's comparable #4 and board of review comparable #3, which are overall more similar to the subject in design, age and features. However, both comparables have somewhat larger dwelling sizes when compared to the subject dwelling. The two comparables have improvement assessments of \$166,464 and \$175,480 or \$46.96 and \$50.31 per square foot of living area. The subject's improvement assessment of \$168,163 or \$51.21 per square foot of living area is bracketed by the two best comparables in the record in terms of overall improvement assessment, but above the comparables on a square foot basis. Accepted real estate valuation theory provides, all other factors being equal, as the size of a property increases, its per unit value decreases. Likewise, as the size of a property decreases, its per unit value increases. Based on this analysis, the Board

finds the subject's higher per square foot improvement assessment is justified given its smaller dwelling size. Therefore, based on this record and after considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
