

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Ronald Mann
DOCKET NO.: 20-02170.001-R-1
PARCEL NO.: 16-26-407-007

The parties of record before the Property Tax Appeal Board are Ronald Mann, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago, and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$81,688
IMPR.: \$135,390
TOTAL: \$217,078

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a one-story dwelling of wood siding exterior construction with 2,662 square feet of living area. The dwelling was built in 1977 and is 43 years old with an effective year built of 1987 due to remodeling in 2015. Features of the home include a basement with a recreation room, central air conditioning, a fireplace and a 552 square foot garage. The property has a 12,127 square foot site and is located in Highland Park, Moraine Township, Lake County.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables located within the same assessment neighborhood code as the subject. The comparables are improved with one-story dwellings of brick, stucco or wood siding exterior construction that range in size from 2,481 to 3,079 square feet of living area and are 56 to 64 years old. Two comparables have finished basement area. The comparables each have central air conditioning, one or two fireplaces and a garage ranging in size from 441 to 650 square feet of

building area. The comparables have improvement assessments ranging from \$99,295 to \$134,963 or from \$40.02 to \$45.16 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$217,078. The subject has an improvement assessment of \$135,390 or \$50.86 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on three equity comparables located within the same assessment neighborhood code as the subject. The comparables are improved with one-story dwellings of wood siding, brick, or brick and wood siding exterior construction ranging in size from 2,494 to 3,122 square feet of living area and were built from 1968 to 1978. Comparable #1 has an effective age of 1989. The comparables have basements with two having recreation rooms. Each comparable has central air conditioning, one fireplace and a garage ranging in size from 462 to 667 square feet of building area. The comparables have improvement assessments ranging from \$142,040 to \$165,221 or from \$52.92 to \$56.95 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted seven equity comparables for the Board's consideration. The Board gives less weight to the appellant's comparables which are less similar in age to the subject than the board of review comparables.

The Board finds the best evidence of assessment equity to be the board of review comparables which overall are more similar to the subject in location, style, dwelling size, age and most features. These comparables have improvement assessments ranging from \$142,040 to \$165,221 or from \$52.92 to \$56.95 per square foot of living area. The subject's improvement assessment of \$135,390 or \$50.86 per square foot of living area, falls below the range established by the best comparables in this record. Based on this evidence and after considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not prove by clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
