

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Jacob Prizer
DOCKET NO.: 20-02191.001-R-1
PARCEL NO.: 16-27-304-020

The parties of record before the Property Tax Appeal Board are Jacob Prizer, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$37,274
IMPR.: \$169,631
TOTAL: \$206,905

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of brick exterior construction with 3,075 square feet of living area. The dwelling was constructed in 2006 and is 14 years old. Features of the home include a basement with finished area, central air conditioning, a fireplace and a 462 square foot garage. The property has an approximately 7,380 square foot site and is located in Highland Park, Moraine Township, Lake County.

The appellant contends assessment inequity, with respect to the improvement assessment, as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables located in the same assessment neighborhood code as the subject. The comparables are improved with two-story dwellings of brick exterior construction that range in size from 2,052 to 2,858 square feet of living area. The homes range in age from 24 to 43 years old. Each comparable has an unfinished basement, central air conditioning and a garage ranging

in size from 420 to 534 square feet of building area. Three comparables each have one fireplace. The comparables have improvement assessments that range from \$95,449 to \$133,864 or from \$41.83 to \$49.52 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$141,757 or \$46.10 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$206,905. The subject has an improvement assessment of \$169,631 or \$55.16 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on three equity comparables located in the same assessment neighborhood code as the subject property. The comparables are improved with two-story dwellings of brick, wood siding or brick and stone exterior construction that range in size from 2,506 to 3,099 square feet of living area. The homes were built in 1999 or 2006. Each comparable has a basement with finished area, central air conditioning, one or two fireplaces and a garage ranging in size from 400 to 666 square feet of building area. The comparables have improvement assessments that range from \$140,164 to \$173,544 or from \$55.93 to \$56.72 per square foot of living area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments, for the assessment year in question, of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds a reduction in the subject's assessment is not warranted.

The record contains seven equity comparables for the Board's consideration. The Board gives less weight to the appellant's comparables which are substantially older in age when compared to the subject, differ from the subject in dwelling size and/or have an unfinished basement when compared to the subject's finished basement.

The Board finds the best evidence of assessment equity to be the board of review comparables which are more similar to the subject in location, age, dwelling size and features. These comparables had improvement assessments that ranged from \$140,164 to \$173,544 or from \$55.93 to \$56.72 per square foot of living area. The subject's improvement assessment of \$169,631 or \$55.16 per square foot of living area falls within the range established by the best comparables in this record. After considering adjustments to the comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
