

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Darlene & Glen Brin
DOCKET NO.: 20-02483.001-R-1
PARCEL NO.: 15-20-101-025

The parties of record before the Property Tax Appeal Board are Darlene & Glen Brin, the appellants, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$32,509
IMPR.: \$136,443
TOTAL: \$168,952

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellants timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of brick exterior construction with 2,963 square feet of living area. The dwelling was constructed in 1986. Features of the home include a basement, that has finished area, central air conditioning, a fireplace, an attached 816 square foot garage and a swimming pool. The property has an approximately 46,610 square foot site and is located in Long Grove, Vernon Township, Lake County.

The appellant contends assessment inequity with respect to the subject's improvement as the basis of the appeal. In support of this argument the appellant submitted assessment information on four comparable properties that are located from .16 to .30 of a mile from the subject. The comparables are improved with 2-story dwellings of wood siding exterior construction ranging in size from 2,916 to 3,531 square feet of living area. The dwellings were built in 1985 or 1987. The comparables have unfinished basements, central air conditioning and an attached garage

ranging in size from 440 to 805 square feet of building area. Three comparables each have one or two fireplaces. The comparables have improvement assessments ranging from \$121,737 to \$147,616 or from \$36.97 to \$41.81 per square foot of living area. Based on this evidence the appellants requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$168,952. The subject property has an improvement assessment of \$136,443 or \$46.05 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted assessment information on five comparable properties that are located from .10 to .38 of a mile from the subject. The comparables are improved with 2-story dwellings of wood siding or wood siding and brick exterior construction ranging in size from 2,833 to 3,152 square feet of living area. The dwellings were built in 1984 or 1985. The comparables have basements, three of which have finished area, central air conditioning, one or two fireplaces and an attached garage ranging in size from 630 to 1,012 square feet of building area. Three comparables each have a swimming pool. The comparables have improvement assessments ranging from \$131,548 to \$144,483 or from \$44.20 to \$49.00 per square foot of living area. Based on this evidence the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayers contend assessment inequity with respect to the subject's improvement as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellants did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of nine comparable properties for the Board's consideration. The Board gives less weight to the appellants' comparables, as well as the board of review's comparables #1 and #2, due to their significantly larger dwelling size and/or their lack of finished basement area when compared to the subject. The Board finds the board of review's remaining comparables are similar to the subject in location, style, age, size and most features. The best comparables have improvement assessments ranging from \$134,159 to \$144,483 or from \$45.14 to \$49.00 per square foot of living area. The subject's improvement assessment of \$136,443 or \$46.05 per square foot of living area falls within the range established by the best comparables in the record. After considering adjustments to the best comparables for differences when compared to the subject, the Board finds the subject's improvement assessment is supported. Based on this record, the Board finds the appellants did not demonstrate with clear and convincing evidence that the subject's improvement is inequitably assessed and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
