

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Joseph Lombardi  
DOCKET NO.: 20-02565.001-R-1  
PARCEL NO.: 14-15-215-034

The parties of record before the Property Tax Appeal Board are Joseph Lombardi, the appellant, by attorney Robert Rosenfeld of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$47,732  
**IMPR.:** \$180,892  
**TOTAL:** \$228,624

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a two-story dwelling of wood siding exterior construction with 3,898 square feet of living area. The dwelling was constructed in 2014 and is approximately 6 years old. Features of the home include a 2,557 square foot basement, central air conditioning and a 946 square foot garage. The property has an 18,064<sup>1</sup> square foot site and is located in Kildeer, Ela Township, Lake County.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables with the same assessment neighborhood code as the subject. The comparables are improved with two-story dwellings of wood siding exterior construction ranging in size from

3,893 to 4,102 square feet of living area. The dwellings are 6 or 7 years old. The comparables each have a basement ranging from 1,895 to 2,060 square feet in size, one of which has a walk-out design. Each comparable has central air conditioning and a garage ranging in size from 693 to 848 square feet of building area. Comparable #4 has a fireplace. The comparables have improvement assessments that range from \$164,717 to \$176,172 or from \$40.50 to \$44.34 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$166,249 or \$42.65 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$228,624. The subject property has an improvement assessment of \$180,892 or \$46.41 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on five comparables with the same assessment neighborhood code as the subject. The comparables are improved with two-story dwellings of wood siding exterior construction with either 3,891 or 3,898 square feet of living area. The dwellings were built in 2012 or 2014. Each comparable has a 2,557 square foot basement, central air conditioning, a fireplace and a garage containing 676 or 946 square feet of building area. The comparables have improvement assessments that range from \$182,339 to \$192,708 or from \$46.78 to \$49.44 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains a total of nine suggested equity comparables for the Board's consideration. The Board has given less weight to the appellant's comparables due to their smaller basement sizes and/or less similar dwelling sizes when compared to the subject.

The Board finds the best evidence of assessment equity to be the comparables presented by the board of review, which are overall most similar, if not identical to the subject in dwelling size, basement size, design, age and some features, except each comparable has a fireplace unlike the subject. These comparables have improvement assessments ranging from \$182,339 to \$192,708 or from \$46.78 to \$49.44 per square foot of living area. The subject's improvement assessment of \$180,892 or \$46.41 per square foot of living area falls below the range established by the best comparables in the record, which appears to be logical given its lack of a fireplace. Based on this record and after considering adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
