

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Kalle Stevens
DOCKET NO.: 20-02579.001-R-1
PARCEL NO.: 14-27-405-006

The parties of record before the Property Tax Appeal Board are Kalle Stevens, the appellant, by attorney Robert Rosenfeld of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$44,640
IMPR.: \$135,109
TOTAL: \$179,749

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of brick and wood siding exterior construction with 3,269 square feet of living area. The dwelling was constructed in 1977 and is approximately 43 years old. The dwelling has a reported effective year built of 1981.¹ Features of the home include a concrete slab foundation, central air conditioning, two fireplaces and a 936 square foot garage. The property has an approximately 57,390² square foot site and is located in Kildeer, Ela Township, Lake County.

¹ The subject's property record card provided by the board of review revealed the subject dwelling has an effective year built of 1981, which was unrefuted by the appellant.

² The parties differ as to the site size of the subject property, the Board finds the best description of size is found in the subject's property record card provided by the board of review.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables with the same assessment neighborhood code as the subject. The comparables are improved with two-story dwellings of brick or wood siding exterior construction ranging in size from 2,938 to 3,334 square feet of living area. The dwellings are 42 to 51 years old. One comparable has a concrete slab foundation and three comparables each have an unfinished basement. Each comparable has central air conditioning, one or two fireplaces and a garage ranging in size from 462 to 736 square feet of building area. The comparables have improvement assessments that range from \$104,462 to \$121,300 or from \$35.56 to \$36.38 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$117,847 or \$36.05 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$179,749. The subject property has an improvement assessment of \$135,109 or \$41.33 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on five comparables with the same assessment neighborhood code as the subject. The board of review reported the comparables are improved with one-story or two-story dwellings of brick or wood siding exterior construction ranging in size from 2,915 to 3,569 square feet of living area. The dwellings were built from 1970 to 1998 with comparable #3 having a reported effective age of 1986. One comparable has a concrete slab foundation and four comparables each have an unfinished basement, two of which have walk-out designs. Each comparable has central air conditioning, one to three fireplaces and a garage ranging in size from 556 to 910 square feet of building area. The comparables have improvement assessments that range from \$123,504 to \$157,353 or from \$41.45 to \$49.11 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains a total of nine suggested equity comparables for the Board's consideration. The Board has given less weight to the appellant's comparables #1, #3 and #4, as well as board of review comparables #1, #3, #4 and #5 as each dwelling has an unfinished basement in contrast to the subject dwelling's concrete slab foundation. Furthermore, board of review comparables #3, #4 and #5 differ from the subject in design and/or age.

The Board finds the best evidence of assessment equity to be the appellant's comparable #2 and board of review comparable #2, which are overall more similar to the subject in foundation type, design and age. However, both dwellings are somewhat smaller in size and have smaller garage

sizes when compared to the subject. These two comparables have improvement assessments of \$104,462 and \$123,504 or \$35.56 and \$42.37 per square foot of living area, respectively. The subject's improvement assessment of \$135,109 or \$41.33 per square foot of living area falls above the two best comparables in terms of overall improvement assessment, but between the comparables on a square foot basis. The subject's higher overall improvement assessment appears to be justified given its larger dwelling and garage sizes. Based on this record and after considering adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
