

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Gloria Lopez
DOCKET NO.: 20-02712.001-R-1
PARCEL NO.: 15-33-216-016

The parties of record before the Property Tax Appeal Board are Gloria Lopez, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$29,679
IMPR.: \$107,227
TOTAL: \$136,906

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a tri-level dwelling of wood siding exterior construction with 2,028 square feet of living area. The dwelling was constructed in 1988 and is approximately 32 years old. Features of the home include a concrete slab foundation, central air conditioning, and a 420 square foot garage. The property has an approximately 7,353 square foot site and is located in Buffalo Grove, Vernon Township, Lake County.

The appellant contends assessment inequity with regard to the improvement assessment as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables located within the same assessment neighborhood code as the subject. The comparables are improved with tri-level homes of wood siding exterior construction with 2,205 square feet of living area. The dwellings are 41 or 42 years old. Three homes each have a concrete slab foundation and one home has a partial basement with finished area. Each home

features central air conditioning and a 480 square foot garage. Two homes each have a fireplace. The comparables have improvement assessments ranging from \$104,964 to \$109,316 or from \$47.60 to \$49.44 per square foot of living area. Based on this evidence the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$136,906. The subject property has an improvement assessment of \$107,227 or \$52.87 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables located within the same assessment neighborhood code as the subject. The comparables are improved with tri-level homes of wood siding exterior construction with 2,028 square feet of living area. The dwellings were built from 1985 to 1988. Each home features central air conditioning, and a 420 square foot garage. Two homes each have one or three fireplaces. The comparables have improvement assessments ranging from \$106,668 to \$113,521 or from \$52.60 to \$55.98 per square foot of living area. Based on this evidence the board of review requested confirmation of the subject's improvement assessment.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains a total of eight equity comparables for the Board's consideration. The Board gives less weight to the appellant's comparables which are less similar to the subject in dwelling size and age than other comparables in this record.

The Board finds the best evidence of assessment equity to be the board of review's comparables which are identical to the subject in design and dwelling size and are similar to the subject in age, location, and most features. These comparables have improvement assessments that range from \$106,668 to \$113,521 or from \$52.60 to \$55.98 per square foot of living area. The subject's improvement assessment of \$107,227 or \$52.87 per square foot of living area falls within the range established by the best comparables in this record. Based on this record and after considering appropriate adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
