

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: John Krzynowek
DOCKET NO.: 20-02883.001-R-1
PARCEL NO.: 12-17-212-068

The parties of record before the Property Tax Appeal Board are John Krzynowek, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$63,297
IMPR.: \$228,100
TOTAL: \$291,397

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of wood siding exterior construction with 4,958 square feet of living area. The dwelling was constructed in 1987 and is approximately 33 years old. Features of the home include an unfinished basement, central air conditioning, three fireplaces and a 550 square foot garage. The property has an approximately 16,000 square foot site and is located in Lake Bluff, Shields Township, Lake County.

The appellant contends assessment inequity, with respect to the improvement assessment, as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables located in the same assessment neighborhood code as the subject. The comparables are improved with two-story dwellings of brick or wood siding exterior construction that range in size from 4,242 to 4,675 square feet of living area. The homes range in age from 20 to 34 years old. Each comparable has a basement, three with finished area,

central air conditioning, one to three fireplaces and a garage ranging in size from 704 to 836 square feet of building area. The comparables have improvement assessments that range from \$158,476 to \$193,949 or from \$33.90 to \$45.72 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$203,897 or \$41.12 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$300,079. The subject has an improvement assessment of \$236,782 or \$47.76 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on five equity comparables located in the same assessment neighborhood code as the subject property. The comparables are improved with two-story dwellings of brick, wood siding or brick and wood siding exterior construction that range in size from 4,318 to 4,427 square feet of living area. The homes were built from 1984 to 1987. Each comparable has a basement with finished area, central air conditioning, two to four fireplaces and a garage with either 704 or 936 square feet of building area. The comparables have improvement assessments that range from \$207,857 to \$241,940 or from \$47.53 to \$56.03 per square foot of living area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments, for the assessment year in question, of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The parties submitted nine equity comparables for the Board's consideration. The Board gives less weight to the appellant's comparable #3 which is newer in age when compared to the subject.

The Board finds the best evidence of assessment equity to be the remaining eight comparables which are similar to the subject in location, age and design. However, these properties each have a smaller dwelling size and larger garage size, when compared to the subject, and seven of these best comparables also have a finished basement, in contrast to the subject's unfinished basement. These best comparables have improvement assessments that range from \$158,476 to \$241,940 or from \$33.90 to \$56.03 per square foot of living area. The subject's improvement assessment of \$236,782 or \$47.76 per square foot of living area falls within the range established by the best comparables in this record. However, after considering appropriate adjustments to the best comparables for differences from the subject in dwelling size, basement finish and garage size, the Board finds the appellant demonstrated with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
