

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: William Schumann  
DOCKET NO.: 20-02949.001-R-1  
PARCEL NO.: 12-28-307-029

The parties of record before the Property Tax Appeal Board are William Schumann, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$78,402  
**IMPR.:** \$388,343  
**TOTAL:** \$466,745

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a 2.5-story dwelling of wood siding exterior construction with 3,477 square feet of living area. The dwelling was constructed in 2017 and is approximately three years old. Features of the home include a basement with finished area, central air conditioning, two fireplaces and a 576 square foot garage. The property has an approximately 8,750 square foot site and is located in Lake Forest, Shields Township, Lake County.

The appellant contends assessment inequity, with respect to the improvement assessment, as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables located in the same assessment neighborhood code as the subject. The comparables are improved with 2-story dwellings of stone or wood siding exterior construction that range in size from 2,809 to 3,992 square feet of living area. The homes range in age from one year to 14 years old. Each comparable has a basement, three with finished area and three

properties have one to four fireplaces and a garage ranging in size from 484 to 791 square feet of building area. Each comparable has central air conditioning. The comparables have improvement assessments that range from \$236,834 to \$304,421 or from \$71.81 to \$88.26 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$288,344 or \$82.93 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$466,745. The subject has an improvement assessment of \$388,343 or \$111.69 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on one equity comparable located in the same assessment neighborhood code as the subject property. The comparable is improved with a 1.75-story dwelling of shingle-wood/asphalt siding with 3,269 square feet of living area. The home was built in 2014 and has a basement with finished area, central air conditioning, one fireplace and a 576 square foot garage. The comparable has an improvement assessment of \$381,188 or \$116.61 per square foot of living area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

### **Conclusion of Law**

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments, for the assessment year in question, of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted five equity comparables for the Board's consideration which have varying degrees of similarity to the subject in location, age, design, dwelling size and features. The appellant's comparables differ from the subject property in design, dwelling size, age, basement foundation and/or lack a garage, while the board of review's one comparable differs from the subject in design. The comparables have improvement assessments ranging from \$236,834 to \$381,188 or from \$71.81 to \$116.61 per square foot of living area. The subject's improvement assessment of \$388,343 or \$111.69 per square foot of living area falls above the range of equity comparables in this record on an overall basis and within the range on a per square foot basis which appears logical given the subject's age and dwelling size relative to the comparables in the record. After considering adjustments to the comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
