

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: William M. Murray
DOCKET NO.: 20-03593.001-R-1
PARCEL NO.: 12-17-405-014

The parties of record before the Property Tax Appeal Board are William M. Murray, the appellant, by attorney Eric Feldman of Eric Feldman & Assoc. P.C. in Chicago; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$77,880
IMPR.: \$125,929
TOTAL: \$203,809

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of wood siding exterior construction with 3,104 square feet of living area. The dwelling was constructed in 1986. Features of the home include an unfinished basement, central air conditioning, a fireplace and a 484 square foot garage. The property has a 19,680 square foot site and is located in Lake Bluff, Shields Township, Lake County.

The appellant contends overvaluation as the basis of the appeal. In support of this argument, the appellant submitted information on five comparable sales with the same assessment neighborhood code as the subject and located within .40 of a mile from the subject property. The comparables have sites that range in size from 16,040 to 23,780 square feet of land area. The

comparables are improved with one-story¹ or two-story dwellings of wood siding exterior construction ranging in size from 3,096 to 3,465 square feet of living area. The dwellings were built from 1982 to 1987. The comparables each have a basement, one of which is finished with a recreation room. Each comparable has central air conditioning, one or two fireplaces and a garage ranging in size from 484 to 660 square feet of building area. The comparables sold from July 2019 to July 2020 for prices ranging from \$400,000 to \$660,000 or from \$129.20 to \$209.41 per square foot of living area, including land. Based on this evidence, the appellant requested the subject's assessment be reduced to \$189,272, which would reflect a market value of \$567,873 or \$182.95 per square foot of living area, including land, when using the statutory level of assessment of 33.33%.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$203,809. The subject's assessment reflects a market value of \$612,223 or \$197.24 per square foot of living area, land included, when using the 2020 three-year average median level of assessment for Lake County of 33.29% as determined by the Illinois Department of Revenue.

In support of its contention of the correct assessment, the board of review submitted information on five comparable sales with the same assessment neighborhood code as the subject and located within .20 of a mile from the subject property. The comparables have sites that range in size from 17,640 to 25,150 square feet of land area. The comparables are improved with one-story² or two-story dwellings of brick, wood siding, or wood siding and brick exterior construction ranging in size from 3,236 to 3,465 square feet of living area. The dwellings were built from 1980 to 1986. Each comparable has a basement that is finished with a recreation room, central air conditioning, one to three fireplaces and a garage ranging in size from 540 to 945 square feet of building area. The comparables sold from February 2019 to October 2020 for prices ranging from \$700,000 to \$775,000 or from \$212.19 to \$223.67 per square foot of living area, including land. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains ten suggested comparable sales for the Board's consideration. The Board has given less weight to the appellant's comparable #4 as it appears to be an outlier due to its considerably lower sale price in relation to the other comparable sales in the record. The Board

¹ The appellant's comparables #1 and #5 have ground floor areas of 1,442 and 1,541 square feet with above ground areas of 3,354 and 3,465 square feet, respectively, suggesting these are part two-story dwellings.

² The board of review's comparable #2 has a ground floor area of 1,541 square feet with an above ground area of 3,465 square feet, suggesting this is a part two-story dwelling.

has also given less weight to the appellant's comparable #2, as well as the five comparables presented by the board of review as each dwelling has a basement that is finished with a recreation room in contrast to the subject's unfinished basement.

The Board finds the best evidence of market value to be the appellant's comparables #1, #3 and #5. These three comparables have unfinished basements like the subject and are similar to the subject in location, dwelling size, age and some features. These comparables sold from July 2019 to March 2020 for prices ranging from \$525,000 to \$660,000 or from \$151.52 to \$203.51 per square foot of living area, including land. The subject's assessment reflects a market value of \$612,223 or \$197.24 per square foot of living area, including land, which falls within the range established by the best comparable sales in the record. Based on this record and after considering adjustments to the best comparables for differences when compared to the subject, the Board finds no reduction in the subject's estimated market value as reflected by its assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
