

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Myongjin Jeon
DOCKET NO.: 20-03718.001-R-1
PARCEL NO.: 15-29-404-004

The parties of record before the Property Tax Appeal Board are Myongjin Jeon, the appellant, by attorney Ronald Kingsley of Lake County Real Estate Tax Appeal, LLC in Lake Forest; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$31,957
IMPR.: \$101,802
TOTAL: \$133,759

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a part two-story and part one-story¹ dwelling of wood siding exterior construction with 2,193 square feet of living area. The dwelling was constructed in 1979. Features of the home include a basement that is finished with a recreation room, central air conditioning and a 441 square foot garage. The property has an approximately 8,340 square foot site and is located in Buffalo Grove, Vernon Township, Lake County.

The appellant contends overvaluation as the basis of the appeal. In support of this argument, the appellant submitted information on five comparable sales with the same assessment neighborhood code as the subject and located within .47 of a mile from the subject property. The

¹ The parties differ as to the description of the subject dwelling's story height. The Board finds the best description of the subject dwelling is found in the subject's property record card presented by the board of review which contains a schematic diagram depicting the dwelling with a part two-story and part one-story design.

comparables have sites that range in size from 6,138 to 9,191 square feet of land area. The comparables are improved with two-story dwellings of frame or frame and brick exterior construction containing 2,048 or 2,103 square feet of living area. The dwellings were built from 1975 to 1980. The comparables each have a basement, two of which are finished with a recreation room. Each comparable has central air conditioning and a garage with either 440 or 462 square feet of building area. Three comparables each have one fireplace. The comparables sold from June to October 2019 for prices ranging from \$330,000 to \$420,000 or from \$156.92 to \$199.71 per square foot of living area, including land. Based on this evidence, the appellant requested the subject's assessment be reduced to \$124,988, which would reflect a market value of \$375,002 or \$171.00 per square foot of living area, including land, when using the statutory level of assessment of 33.33%.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$133,759. The subject's assessment reflects a market value of \$401,799 or \$183.22 per square foot of living area, land included, when using the 2020 three-year average median level of assessment for Lake County of 33.29% as determined by the Illinois Department of Revenue.

In support of its contention of the correct assessment, the board of review submitted information on four comparable sales with the same assessment neighborhood code as the subject and located within .16 of a mile from the subject property. The comparables have sites that range in size from 7,200 to 9,050 square feet of land area. The comparables are improved with two-story dwellings of wood siding exterior construction ranging in size from 2,264 to 2,456 square feet of living area. The dwellings were built from 1979 to 1987. The comparables each have a basement, two of which are finished with a recreation room. Each comparable has central air conditioning, one fireplace and a garage ranging in size from 400 to 462 square feet of building area. The comparables sold from August 2019 to September 2020 for prices ranging from \$460,000 to \$488,000 or from \$193.81 to \$215.55 per square foot of living area, including land.

The board of review also presented a copy of the subject property's Multiple Listing Service listing sheet which disclosed the subject property was listed for sale on February 22, 2021 for a price of \$469,000 and subsequently sold on May 18, 2021 for a price of \$441,000.

Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains nine suggested comparable sales for the Board's consideration. The Board has given less weight to the appellant's comparables #1, #3 and #4, as well as board of review

comparables #2 and #4 as each dwelling has an unfinished basement in contrast to the subject's basement that is finished with a recreation room.

The Board finds the best evidence of market value to be the appellant's comparables #2 and #5, along with board of review comparables #1 and #3. The Board finds these four comparables have basement recreation rooms, like the subject and are similar to the subject in dwelling size, design and age. The comparables sold from July 2019 to May 2020 for prices ranging from \$330,000 to \$488,000 or from \$156.92 to \$215.55 per square foot of living area, including land. The subject's assessment reflects a market value of \$401,799 or \$183.22 per square foot of living area, including land, which falls within the range established by the best comparable sales in the record and well below the subject's February 2021 sale price of \$441,000. Therefore, based on this record and after considering adjustments to the best comparables for differences when compared to the subject, the Board finds no reduction in the subject's estimated market value as reflected by its assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
