

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Jin Kang
DOCKET NO.: 20-03887.001-R-1
PARCEL NO.: 15-29-402-015

The parties of record before the Property Tax Appeal Board are Jin Kang, the appellant, by attorney Eric Feldman of Eric Feldman & Assoc. P.C. in Chicago; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds ***a reduction*** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$28,364
IMPR.: \$83,158
TOTAL: \$111,522

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a tri-level dwelling of wood siding exterior construction with 1,200 square feet of above ground living area. The dwelling was constructed in 1978. Features of the home include a lower level, an additional partial basement, central air conditioning, a fireplace and a 400 square foot garage. The property has a 9,760 square foot site and is located in Vernon Hills, Vernon Township, Lake County.

The appellant contends overvaluation as the basis of the appeal. In support of this argument, the appellant submitted information on five comparable sales with the same assessment neighborhood code as the subject and located within .63 of mile from the subject property. The comparables have sites that range in size from 6,500 to 11,170 square feet of land area. The comparables are improved with tri-level dwellings of wood siding exterior construction ranging in size from 1,176 to 1,480 square feet of above ground living area. The dwellings were built

from 1977 to 1983. The comparables each have a lower level, three of which have finished area. Each comparable has additional partial basement, central air conditioning and a garage ranging in size from 400 to 483 square feet of building area. Four comparables each have one fireplace. The comparables sold from January 2019 to July 2020 for prices ranging from \$260,000 to \$330,000 or from \$221.09 to \$254.25 per square foot of above ground living area, including land. Based on this evidence, the appellant requested the subject's assessment be reduced to \$93,006 which would reflect a market value of \$279,046 or \$232.54 per square foot of above ground living area, including land, when using the statutory level of assessment of 33.33%.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$115,021. The subject's assessment reflects a market value of \$345,512 or \$287.93 per square foot of above ground living area, land included, when using the 2020 three-year average median level of assessment for Lake County of 33.29% as determined by the Illinois Department of Revenue.

In support of its contention of the correct assessment, the board of review submitted information on four comparable sales with the same assessment neighborhood code as the subject and located within .47 of a mile from the subject property. The comparables have sites that range in size from 7,130 to 9,430 square feet of land area. The comparables are improved with tri-level dwellings of wood siding exterior construction with 1,176 or 1,200 square feet of above ground living area. The dwellings were built in 1978 or 1979. The comparables each have a lower level, one of which has finished area and each comparable has an additional partial basement, one of which has finished area. Each comparable has central air conditioning and either a 400 or 483 square foot garage. Two comparables each have one fireplace. The comparables sold from June 2019 to August 2020 for prices ranging from \$334,000 to \$348,000 or from \$278.33 to \$295.92 per square foot of above ground living area, including land. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds a reduction in the subject's assessment is not warranted based upon the record evidence.

The record contains nine suggested comparable sales for the Board's consideration. The Board has given less weight to the appellant's comparables #1, #2, #4 and #5, as well as board of review comparable #1 which are less similar to the subject in dwelling size than are the remaining comparables in the record. The Board has also given less weight to board of review comparable #2 as it has an additional basement with finished area in contrast to the subject's additional basement that is unfinished.

The Board finds the best evidence of market value to be the appellant's comparable #3, along with board of review comparables #3 and #4 which are identical to the subject in dwelling size and similar to the subject in location, design, age and most features. The comparables sold from

February to August 2020 for prices ranging from \$272,000 to \$340,000 or from \$226.67 to \$283.33 per square foot of above ground living area, including land. The subject's assessment reflects a market value of \$345,512 or \$287.93 per square foot of above ground living area, including land, which falls above the range established by the best comparable sales in the record. After considering adjustments to the best comparables for differences when compared to the subject, the Board finds the subject's estimated market value as reflected by its assessment is excessive. Therefore, based on this record the Board finds a reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
