

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Eric Meadow  
DOCKET NO.: 20-04090.001-R-1  
PARCEL NO.: 16-09-118-010

The parties of record before the Property Tax Appeal Board are Eric Meadow, the appellant, by attorney Eric Feldman, of Eric Feldman & Assoc. P.C. in Chicago; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$65,477  
**IMPR.:** \$101,155  
**TOTAL:** \$166,632

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a 2-story dwelling of wood siding exterior construction with 2,542 square feet of living area. The dwelling was built in 1967. Features of the home include a concrete slab foundation<sup>1</sup>, central air conditioning, and one fireplace. The property has an approximately 12,750 square feet of land area and is located in Lake Forest, West Deerfield Township, Lake County.

The appellant contends overvaluation as the basis of the appeal. In support of this argument, the appellant submitted information on four comparable sales with the same assessment neighborhood code as the subject property and located within 0.45 of a mile from the subject.

<sup>1</sup> The appellant reported that the subject has basement area; however, the best evidence of the subject's description of the basement was found in the property record card and schematic drawing presented by the board of review which did not disclose any basement area.

The comparables have sites that range in size from 12,150 to 17,850 square feet of land area. The appellant reported that the comparables are improved with 1.75-story or 2-story dwellings of wood siding or brick and wood siding ranging in size from 2,254 to 3,008 square feet of living area. The dwellings were built from 1966 to 1976. The appellant reported that one comparable has a partial basement with finished area and three comparables each have a concrete slab foundation. Each comparable has central air conditioning, one fireplace, and a 483 to 575 square foot garage. The properties sold from May 2019 to February 2020 for prices ranging from \$400,000 to \$507,000 or from \$163.46 to \$177.46 per square foot of living area, land included.

Based on this evidence, the appellant requested the subject's assessment be reduced to \$142,246, which would reflect a market value of \$426,781 or \$167.89 per square foot of living area, including land, when using the statutory level of assessment of 33.33%.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$166,632 reflecting a market value of \$500,547 or \$196.91 per square foot of living area, including land, when using the 2020 three-year average median level of assessment for Lake County of 33.29% as determined by the Illinois Department of Revenue.

In support of the subject's assessment, the board of review submitted information on five comparable sales with the same assessment neighborhood code as the subject property and located within 0.38 of a mile from the subject. The comparables have sites that range in size from 12,750 to 15,390 square feet of land area. The board of review reported that these comparables are improved with 2-story dwellings of wood siding or brick and wood siding exterior construction ranging in size from 2,456 to 2,664 square feet of living area. The dwellings were built from 1964 to 1975. The board of review reported that two comparables each have a finished basement and three comparables have concrete slab foundations. Each comparable has central air conditioning, one fireplace, and a 400 to 606 square foot garage. The properties sold from April to December 2020 for prices ranging from \$555,000 to \$700,000 or from \$208.33 to \$278.91 per square foot of living area, land included. Based on this evidence, the board of review requested confirmation of the subject's assessment.

### **Conclusion of Law**

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains nine comparable sales for the Board's consideration. The Board gives less weight to the appellant's comparables #1 and #2 as well as board of review comparables #3 and #4 which differ from the subject in dwelling size and/or have a basement, not a feature of the subject.

The Board finds the best evidence of market value to be the parties' remaining comparables which are similar to the subject in location, design, age, dwelling size, and most features. Each

comparable has a garage, not a feature of the subject, suggesting downward adjustments for this difference would be required to make them more equivalent to the subject. Nevertheless, these five properties sold from June 2019 to December 2020 for prices ranging from \$425,000 to \$700,000 or from \$163.46 to \$278.91 per square foot of living area, land included. The subject's assessment reflects an estimated market value of \$500,547 or \$196.91 per square foot of living area, land included, which falls within the range of the best comparable sales in the record. Based on the record and after considering adjustments to the best comparables for differences from the subject, the Board finds the subject's estimated market value as reflected by its assessment is supported and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
