

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: John Metler
DOCKET NO.: 20-04626.001-R-1
PARCEL NO.: 07-30-302-085

The parties of record before the Property Tax Appeal Board are John Metler, the appellant, by attorney Eric Feldman of Eric Feldman & Assoc. P.C. in Chicago; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$16,978
IMPR.: \$49,682
TOTAL: \$66,660

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a one-story dwelling of wood siding exterior construction with 1,151 square feet of living area. The dwelling was constructed in 1954. Features of the home include a basement with finished area, central air conditioning, a fireplace, a 418 square foot attached garage and a 1,008 square foot detached garage. The property has a 17,050 square foot site and is located in Grayslake, Warren Township, Lake County.

The appellant contends overvaluation as the basis of the appeal. In support of this argument, the appellant submitted information on five comparable sales with the same assessment neighborhood code as the subject and located within .77 of a mile from the subject property. The comparables have sites that range in size from 10,980 to 13,530 square feet of land area. The comparables are improved with one-story dwellings of wood siding exterior construction ranging in size from 1,000 to 1,176 square feet of living area. The dwellings were built from 1952 to

1964. Two comparables each have a basement and three comparables each have either a crawl space or a concrete slab foundation. Four comparables have central air conditioning and each comparable has either an attached or a detached garage ranging in size from 252 to 550 square feet of building area. The comparables sold from April to December 2019 for prices ranging from \$140,000 to \$152,000 or from \$127.55 to \$146.86 per square foot of living area, including land. Based on this evidence, the appellant requested the subject's total assessment be reduced to \$53,192, which would reflect a market value of \$159,592 or \$138.66 per square foot of living area, including land, when using the statutory level of assessment of 33.33%.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$66,660. The subject's assessment reflects a market value of \$200,240 or \$173.97 per square foot of living area, land included, when using the 2020 three-year average median level of assessment for Lake County of 33.29% as determined by the Illinois Department of Revenue.

In support of its contention of the correct assessment, the board of review submitted information on five comparable sales with the same assessment neighborhood code as the subject and located within .79 of a mile from the subject property. The comparables have sites that range in size from 8,100 to 12,560 square feet of land area. The comparables are improved with one-story dwellings of wood siding exterior construction ranging in size from 1,025 to 1,312 square feet of living area. The dwellings were built from 1951 to 1964. One comparable has a crawl space foundation and four comparables each have a basement, two of which have finished area. Each comparable has central air conditioning and either an attached or a detached garage ranging in size from 220 to 576 square feet of building area. Two comparables each have one fireplace. The comparables sold from April 2019 to November 2020 for prices ranging from \$202,000 to \$229,900 or from \$161.97 to \$224.29 per square foot of living area, including land. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains ten suggested comparable sales for the Board's consideration. The Board has given less weight to the appellant's comparables #1, #2 and #5 due to their dissimilar crawl space or concrete slab foundation when compared to the subject's basement foundation with finished area. Furthermore, the appellant's comparable #2 lacks central air conditioning, a feature of the subject. The Board has given reduced weight to board of review comparables #4 and #5 due to their larger dwelling size or dissimilar crawl space foundation when compared to the subject.

The Board finds the best evidence of market value to be parties' remaining comparable sales, which are similar to the subject in location, dwelling size, design, age and some features, except

four comparables have unfinished basements in contrast to the subject's finished basement, suggesting upward adjustments would be required to make the comparables more equivalent to the subject. Nevertheless, the comparables sold from May 2019 to November 2020 for prices ranging from \$150,000 to \$229,900 or from \$130.21 to \$224.29 per square foot of living area, including land. The subject's assessment reflects a market value of \$200,240 or \$173.97 per square foot of living area, including land, which falls within the range established by the best comparable sales in the record and appears to be well supported given its superior finished basement feature. Based on this record and after considering adjustments to the comparables for differences when compared to the subject, the Board finds no reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
