

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Michael Hope
DOCKET NO.: 20-05381.001-R-1
PARCEL NO.: 16-10-301-007

The parties of record before the Property Tax Appeal Board are Michael Hope, the appellant, by attorney Ronald Kingsley, of Lake County Real Estate Tax Appeal, LLC in Lake Forest, and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 60,243
IMPR.: \$287,816
TOTAL: \$348,059

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of brick exterior construction with 4,833 square feet of living area. The dwelling was constructed in 2000. Features of the home include a basement with a 1,575 square foot recreation room, central air conditioning, two fireplaces and a 1,008 square foot garage.¹ The property has an approximately 17,780 square foot site and is located in Highland Park, Moraine Township, Lake County.

The appellant contends overvaluation as the basis of the appeal. In support of this argument, the appellant submitted information on three comparable sales, one of which is located in the same neighborhood code as the subject. The properties are located from 1 to 2.75-miles from the subject. The parcels range in size from 12,676 to 14,884 square feet of land area and are

improved with two-story dwellings that were built from 1990 to 2007. The homes range in size from 3,951 to 4,192 square feet of living area and feature basements, central air conditioning, a fireplace and a garage ranging in size from 463 to 726 square feet of building area. The comparables sold from August 2019 to June 2020 for prices ranging from \$680,000 to \$1,012,500 or from \$162.21 to \$256.26 per square foot of living area, including land.

As part of the appellant's evidence, in a brief, counsel argued that appellant's comparable #3 was an outlier given its modern condition and upgrades as shown in an attached Multiple Listing Service (MLS) data sheet.

Based on this evidence and argument, the appellant requested a reduction in the subject's total assessment to \$298,005, which would reflect a market value of \$894,104 or \$185.00 per square foot of living area, including land, when applying the statutory level of assessment of 33.33%.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$348,059. The subject's assessment reflects a market value of \$1,045,536 or \$216.33 per square foot of living area, land included, when using the 2020 three year average median level of assessment for Lake County of 33.29% as determined by the Illinois Department of Revenue.

In support of its contention of the correct assessment, the board of review submitted information on three comparable sales, where board of review comparable #1 is the same property as appellant's comparable #3. The properties are located from .68 to 2.23-miles from the subject. The parcels range in size from approximately 12,680 to 30,000 square feet of land area and are improved with two-story brick dwellings that were built from 1895 to 2006, with the oldest home having a reported effective age of 1995. The homes range in size from 3,951 to 5,642 square feet of living area and feature basements with finished area, central air conditioning, one or three fireplaces and a garage ranging in size from 463 to 1,022 square feet of building area. The comparables sold from March 2018 to September 2020 for prices ranging from \$1,012,500 to \$1,352,000 or from \$239.63 to \$256.26 per square foot of living area, including land.

Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of five comparable sales, one of which was common to both parties, to support their respective positions before the Property Tax Appeal Board. The Board has given reduced weight to appellant's comparable #3/board of review comparable #1 due to the substantially smaller dwelling size of this home when compared to the subject. The Board has

given reduced weight to board of review comparable #3 which was built in 1895 but presents an effective age of 1995 as this dwelling differs from the subject which was constructed in 2000.

The Board finds the best evidence of market value to be appellant's comparable sales #1 and #2 along with board of review comparable sale #2 which present varying degrees of similarity to the subject in location, age, dwelling size and other features. These most similar comparables sold from March 2018 to June 2020 for prices ranging from \$680,000 to \$1,072,369 or from \$162.21 to \$250.03 per square foot of living area, including land. The subject's assessment reflects a market value of \$1,045,536 or \$216.33 per square foot of living area, including land, which is within the range established by the best comparable sales in this record both in terms of overall value and on a per-square-foot basis. Based on this evidence and after considering appropriate adjustments to the best comparables in the record for differences when compared to the subject, the Board finds a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
