

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: AMH 2015-1 Borrower, LP
DOCKET NO.: 20-05716.001-R-1
PARCEL NO.: 12-32-453-010

The parties of record before the Property Tax Appeal Board are AMH 2015-1 Borrower, LP, the appellant, by attorney Jeffrey G. Hertz, of Sarnoff & Baccash in Chicago; and the Kane County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Kane** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$13,090
IMPR.: \$70,235
TOTAL: \$83,325

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Kane County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The parties appeared before the Property Tax Appeal Board on November 15, 2022 for a hearing at the Kane County Government Center in Geneva pursuant to prior written notice dated September 7, 2022. Appearing on behalf of the appellant was attorney Jeffrey G. Hertz, and appearing on behalf of the Kane County Board of Review was Michelle Abell, Kane County Board of Review Member.

The subject property consists of a 2-story dwelling of frame exterior construction with 2,168 square feet of living area. The dwelling was constructed in 1993 and is approximately 27 years old. Features of the home include a basement, central air conditioning, a fireplace, and a 2-car garage. The property has a 11,326 square foot site and is located in North Aurora, Batavia Township, Kane County.

The appellant contends overvaluation as the basis of the appeal. In support of this argument the appellant submitted an appraisal estimating the subject property had a market value of \$221,000 as of January 1, 2020. The appraisal was prepared by Peter Petrovich, a certified residential real estate appraiser, for ad valorem tax purposes. The appraiser was not present at the scheduled hearing.

The appraiser examined four comparable sales located from 0.03 to 0.96 of a mile from the subject. The parcels range in size from 10,019 to 16,077 square feet of land area and are improved with 2-story homes of frame exterior construction ranging in size from 1,861 to 2,168 square feet of living area. The dwellings range in age from 25 to 27 years old. Three homes each have a basement, one of which is a walkout basement. Each home has central air conditioning and a 2-car garage. The comparables sold from April 2018 to October 2019 for prices ranging from \$225,000 to \$256,000 or from \$107.01 to \$120.90 per square foot of living area, including land. The appraiser made adjustments to these comparables for sale or financing concessions and for differences from the subject, such as lot size, view, quality of construction, dwelling size, fireplace amenity, and other improvements, to arrive at adjusted sale prices ranging from \$220,500 to \$228,000. Based on the foregoing, the appraiser opined a market value for the subject of \$221,000 as of January 1, 2020.

At hearing, Hertz described the subject property and acknowledged that the subject property is a rental property and is not owner-occupied. Hertz presented the appraisal comparables and value conclusion. Upon questioning by Abell, Hertz was unable to explain adjustments for quality made by the appraiser. Hertz acknowledged that the appraiser conducted an exterior only inspection and stated that the quality adjustments relate to exterior features of those comparables.

Based on this evidence the appellant requested a reduction in the subject's assessment to \$73,659 to reflect the appraised value conclusion.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$83,325. The subject's assessment reflects a market value of \$250,075 or \$115.35 per square foot of living area, land included, when using the 2020 three year average median level of assessment for Kane County of 33.32% as determined by the Illinois Department of Revenue.

In support of its contention of the correct assessment the board of review submitted information on four comparable sales located from 0.26 to 0.51 of a mile from the subject. The parcels range in size from 10,010 to 12,290 square feet of land area and are improved with 2-story homes of frame or brick and frame exterior construction ranging in size from 1,808 to 2,250 square feet of living area. The dwellings were built in 1993 or 1995. Three homes each have a basement and one home has a fireplace. Each home has central air conditioning and a garage ranging in size from 400 to 480 square feet of building area. The comparables sold from August 2017 to July 2019 for prices ranging from \$242,500 to \$287,000 or from \$124.49 to \$134.13 per square foot of living area, including land.

The board of review also submitted a brief contesting the appraiser's adjustments for financing concessions and adjustments for quality of construction for appraisal sales #2, #3, and #4. The

board of review further asserted that appraisal sale #1 is located outside the subject's neighborhood.

At hearing, Abell contended the board of review's comparables are located within the subject's subdivision and support the subject's assessment. Upon questioning by Hertz, Abell acknowledged the comparables were prepared by the township assessor and agreed the comparables do not include adjustments but stated the comparables are similar to the subject. Abell further contended at hearing that the appraised value conclusion is not supported and is based on unexplained large adjustments to the comparables.

Based on this evidence the board of review requested the subject's assessment be sustained.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The appellant submitted an appraisal and the board of review submitted four comparable sales to support their respective positions before the Board. The Board gives no weight to the value conclusion contained within the appellant's appraisal as the appraiser was not present at the hearing to testify in support of the value conclusion. The Board will instead consider the raw sales data presented in the appraisal report and by the board of review.

The record contains eight comparable sales for the Board's consideration. The Board gives less weight to appraisal sale #1, which is a much smaller home than the subject dwelling, and appraisal sale #3, which sold less proximate in time to the January 1, 2020 assessment date than other comparables in this record and lacks a basement which is a feature of the subject. The Board gives less weight to the board of review's comparables #1 and #2, which sold less proximate in time to the January 1, 2020 assessment date than other comparables in this record. Moreover, these comparables differ substantially from the subject in dwelling size and/or foundation type.

The Board finds the best evidence of market value to be appraisal sales #2 and #4 and the board of review's comparables #3 and #4, which are similar to the subject in dwelling size, age, location, and most features. These most similar comparables sold from May to October 2019 for prices ranging from \$225,000 to \$287,000 or from \$109.65 to \$128.21 per square foot of living area, including land. The subject's assessment reflects a market value of \$250,075 or \$115.35 per square foot of living area, including land, which is within the range established by the best comparable sales in the record. Based on this evidence and after considering appropriate adjustments to the best comparables for differences when compared to the subject, the Board finds a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
