

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Vincent A. Marin
DOCKET NO.: 20-08167.001-R-1
PARCEL NO.: 09-14-202-036

The parties of record before the Property Tax Appeal Board are Vincent A. Marin, the appellant, by Jessica Hill-Magiera, Attorney at Law in Lake Zurich; and the DuPage County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **DuPage** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$113,730
IMPR.: \$232,010
TOTAL: \$345,740

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the DuPage County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of brick exterior construction with 4,084 square feet of living area. The dwelling was constructed in 2011. Features of the home include a partially finished basement, central air conditioning, one fireplace, and a 1,190 square foot garage. The property has a 14,240 square foot site and is located in Hinsdale, Downers Grove Township, DuPage County.

The appellant contend overvaluation as the basis of the appeal. In support of this argument, the appellant submitted information on six comparable sales with the same assessment neighborhood codes as the subject property and located within 0.43 of a mile from the subject. The properties have sites that range in size from 10,684 to 12,975 square feet of land area. The comparables are improved with 2-story dwellings of brick or frame exterior construction ranging in size from

3,698 to 4,292 square feet of living area.¹ The homes were built from 2004 to 2012. Each comparable has a basement with four having finished area, central air conditioning, one or two fireplaces, and a garage that ranges in size from 729 to 1,524 square feet of building area. The comparables sold from January 2019 to December 2020 for prices ranging from \$745,000 to \$900,000 or from \$190.44 to \$238.80 per square foot of living area, land included. Based on this evidence, the appellant requested a reduced assessment of \$300,678, for an estimated market value of \$902,124 or \$220.89 per square foot of living area, land included, when applying the statutory level of assessment of 33.33%.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$345,740. The subject's assessment reflects a market value of \$1,035,150 or \$253.46 per square foot of living area, land included, when using the 2020 three-year average median level of assessment for DuPage County of 33.40% as determined by the Illinois Department of Revenue.

In support of its contention of the correct assessment, the board of review submitted information, including a grid analysis and property record cards, on four comparable sales with the same assessment neighborhood code as the subject property and located within 0.23 of a mile from the subject. The properties have sites that range in size from 11,100 to 13,300 square feet of land area. The comparables are improved with 2-story dwellings of brick or frame exterior construction ranging in size from 3,732 to 4,599 square feet of living area. The dwellings were built from 2006 to 2019. Each comparable has a basement with finished area, central air conditioning, one fireplace, and a garage that ranges in size from 817 to 1,278 square feet of building area. The comparables sold from August 2018 to January 2020 for prices ranging from \$988,000 to \$1,170,000 or from \$254.40 to \$312.08 per square foot of living area, land included.

The board of review evidence also included a grid analysis and property record cards which contained property characteristics for the appellant's comparables, some of which was not disclosed by the appellant. Based on this evidence, the board of review requested confirmation of the subject's assessment.

In written rebuttal, the appellant critiqued the board of review's four suggested comparable sales for dwelling size and sale date, in addition to asserting that board of review comparable #2 appeared to be an outlier and indicating that board of review comparable #4 was an acceptable sale. The appellants also provided two grid analyses, one of both parties' comparables and the second with the appellant's opinion of the best comparable sales. Based on the evidence presented, the appellant's counsel argued that the subject was overassessed and a reduction as requested by the appellant was warranted.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales, or

construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of ten comparable sales to support their respective positions before the Property Tax Appeal Board. The Board gives less weight to the appellant's comparables #2 and #3 which lack basement finish, which is a feature of the subject. The Board gives reduced weight to board of review comparable #1 which has a 2018 sale date occurring less proximate in time to the subject's January 1, 2020 assessment date than the other comparables in this record.

The Board finds the best evidence of market value to be the parties' remaining comparables which sold proximate in time to the subject's assessment date and are similar to the subject in location, design, age, dwelling size, and other features. These seven properties sold from January 2019 to December 2020 for prices ranging from \$745,000 to \$1,170,000 or from \$190.44 to \$312.08 per square foot of living area, land included. The subject's assessment reflects a market value of \$1,035,150 or \$253.46 per square foot of living area, land included, which falls within the range established by the best comparable sales in this record. Based on this record and after considering adjustments to the best comparables for differences from the subject, the Board finds the subject's estimated market value as reflected by its assessment is supported and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
