

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Saliba Kokaly
DOCKET NO.: 20-08415.001-R-1
PARCEL NO.: 03-34-202-018

The parties of record before the Property Tax Appeal Board are Saliba Kokaly, the appellant, by Jessica Hill-Magiera, Attorney at Law in Lake Zurich; and the DuPage County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **DuPage** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$57,150
IMPR.: \$176,830
TOTAL: \$233,980

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the DuPage County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of frame and brick exterior construction with 3,133 square feet of living area. The dwelling was constructed in 2003. Features of the home include a basement, central air conditioning, a fireplace and a 419 square foot garage. The property has a 9,200 square foot site and is located in Elmhurst, Addison Township, DuPage County.

The appellant contends overvaluation as the basis of the appeal. In support of this argument the appellant submitted information on five comparable sales with the same assessment neighborhood code as the subject and located within .49 of a mile from the subject. These comparables are described as 2-story dwellings built from 1996 to 2004 and range in size from 2,712 to 3,391 square feet of living area. The comparables each have a basement, central air conditioning, one fireplace and a garage ranging in size from 399 to 440 square feet of building area. The comparables sold from February 2019 to May 2020 for prices ranging from \$565,000

to \$646,000 or from \$179.89 to \$222.91 per square foot of living area, land included. Based on this evidence, the appellant requested a reduction in the subject's total assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$233,980. The subject's assessment reflects a market value of \$700,539 or \$223.60 per square foot of living area, land included, when using the 2020 three-year average median level of assessment for DuPage County of 33.40% as determined by the Illinois Department of Revenue.

In response to the appellant's evidence, the board of review through the township assessor submitted a comparable report on the appellant's comparable sales that reported sites ranging in size from 6,435 to 9,250 square feet of land area and comparable #3 has finished basement area which were not reported by the appellant.

In support of its contention of the correct assessment the board of review submitted information on six comparable sales with the same assessment neighborhood code as the subject that was prepared by the township assessor. Comparables #5 and #6 are duplicates of appellants' comparable #4 and #5. The comparables are described as 2-story dwellings of frame, brick, or frame and brick exterior construction built from 1996 to 2005 on sites ranging in size from 6,435 to 9,000 square feet of land area. The dwellings range in size from 2,712 to 3,556 square feet of living area. The comparables each have a basement, central air conditioning, one fireplace and a garage ranging in size from 420 to 877 square feet of building area. These comparables sold from March 2018 to September 2019 for prices ranging from \$565,000 to \$812,500 or from \$206.62 to \$244.78 per square foot of living area, land included. The board of review also provided a location map of both parties' comparable sales in relation to the subject property, property record cards and exterior photographs. Based on this evidence, the board of review requested confirmation of the subject's assessment.

In written rebuttal, counsel for the appellant contended that board of review comparables #1 through #4 are not comparable due to their remote sale dates and/or differences in dwelling size when compared to the subject. In a rebuttal grid analysis, counsel suggested that the appellant's comparables are the best comparable sales in the record and contended the subject's assessment should be reduced.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The Board finds the parties submitted nine comparables sales to support their respective positions which includes the two common comparables. The Board gives less weight to appellant's comparable sale #3 which has finished basement area that is not a subject feature. The Board gives less weight to board of review comparables #3 and #4 due to their 2018 sale

dates occurring less proximate in time to the January 1, 2021 assessment date than the other sales in the record.

The Board finds the best evidence of market value to be the parties' remaining comparables which includes the two common comparables. These six comparables sold proximate in time to the assessment date at issue and are similar to the subject in location, age, dwelling size and features. The comparables sold from May 2019 to May 2020 for prices ranging from \$565,000 to \$812,500 or from \$182.18 to \$228.49 per square foot of living area, including land. The subject's assessment reflects a market value of \$700,539 or \$223.60 per square foot of living area, including land, which falls within the range established by the best comparables sales. Therefore, after considering adjustments to the best comparables sales for differences when compared to the subject, the Board finds the subject's estimated market value as reflected by its assessment is supported and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
