

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: S. B. Jaligama
DOCKET NO.: 20-08431.001-R-1
PARCEL NO.: 07-18-411-003

The parties of record before the Property Tax Appeal Board are S. B. Jaligama, the appellant, by Jessica Hill-Magiera, Attorney at Law in Lake Zurich; and the DuPage County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **DuPage** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$30,950
IMPR.: \$95,470
TOTAL: \$126,420

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the DuPage County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of frame construction with 2,221 square feet of living area. The dwelling was constructed in 1998. Features of the home include a basement with 419 square feet of finished area,¹ central air conditioning, a fireplace, and a 2-car garage. The property has an approximately 8,625 square foot site and is located in Aurora, Naperville Township, DuPage County.

The appellant contends overvaluation as the basis of the appeal. In support of this argument, the appellant submitted a grid analysis with information on five comparable sales located within the same assessment neighborhood as the subject property. Three comparables have sites ranging in

size from 8,250 to 10,000 square feet of land area.² The comparable sites are improved with 2-story dwellings of frame or frame and brick construction that range in size from 2,255 to 2,428 square feet of living area. The dwellings were built from 1996 to 1998. Each comparable features an unfinished basement, central air conditioning, a fireplace, and a 2-car garage. The comparables sold from April 2019 to July 2020 for prices ranging from \$338,000 to \$397,000 or from \$146.21 to \$167.09 per square foot of living area, including land. Based on this evidence, the appellant requested the subject's total assessment be reduced.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$126,420. The subject's assessment reflects a market value of \$378,503 or \$170.42 per square foot of living area, land included, when using the 2020 three-year average median level of assessment for DuPage County of 33.40% as determined by the Illinois Department of Revenue.

In support of its contention of the correct assessment, the board of review submitted property record cards for each comparable presented by the parties in addition to a grid analysis with information on six comparable sales located within the same assessment neighborhood as the subject property. Board of review comparable #1 is the same property as appellant's comparable #5. The comparable properties are improved with 2-story dwellings of frame or frame and brick construction that range in size from 2,242 to 2,480 square feet of living area. The dwellings were built in either 1997 or 1998. Five homes each feature an unfinished basement and one dwelling has a basement with 694 square feet of finished area. Each home also has central air conditioning, and a 2-car or a 3-car garage. Five dwellings each have a fireplace. The comparables sold from May 2017 to April 2019 for prices ranging from \$380,000 to \$394,000 or from \$155.24 to \$169.49 per square foot of living area, including land. Based on this evidence, the board of review requested the assessment be sustained.

In rebuttal, the appellant's counsel critiqued five comparables presented by the board of review based on their remote sale dates relative to the lien date at issue.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains a total of ten comparable sales including one common comparable. The Board gave less weight to the appellant's comparable #1 and board of review comparables (which includes the parties' common comparable) based on their sale dates being too remote in time to accurately reflect the subject's market value as of the January 1, 2020 assessment date at

issue and given that other sales more proximate in time to the lien date are available as disclosed by the appellant.

On this record, the Board finds the best evidence of market value to be appellant's comparables #2, #3, and #4 which sold proximate to the lien date at issue and are similar to the subject in location, lot size, design, age, dwelling size, and features. However, none of these comparables have a finished basement area like the subject dwelling, suggesting that upward adjustments are needed to the comparables in order to make them more equivalent to the subject. The best overall comparables in the record sold in April and July 2020 for prices ranging from \$355,000 to \$397,000 or from \$146.21 to \$167.09 per square foot of living area, including land. The subject's assessment reflects a market value of \$378,503 or \$170.42 per square foot of living area, including land, which is within the range established by the best comparable sales in this record in terms of overall value and slightly above on a per square foot of living area basis. After considering adjustments to the best comparables in the record for differences from the subject such as finished basement area, the Board finds that the appellant did not demonstrate by a preponderance of the evidence that the subject property is overvalued and, therefore, a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
