

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Michael Le Beau
DOCKET NO.: 20-08455.001-R-1
PARCEL NO.: 05-14-201-011

The parties of record before the Property Tax Appeal Board are Michael Le Beau, the appellant, by Jessica Hill-Magiera, Attorney at Law in Lake Zurich; and the DuPage County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds ***a reduction*** in the assessment of the property as established by the **DuPage** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$48,410
IMPR.: \$211,860
TOTAL: \$260,270

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the DuPage County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of frame and masonry exterior construction with 3,388 square feet of living area.¹ The dwelling was constructed in 1941. Features of the home include a basement, central air conditioning, a fireplace and a 619 square foot garage. The property has an 29,010 square foot site and is located in Glen Ellyn, Milton Township, DuPage County.

The appellant contends overvaluation as the basis of the appeal. In support of this argument, the appellant submitted information on four comparable sales that have the same assessment neighborhood code as the subject and are located within .48 of a mile from the subject property. The comparables are improved with two-story dwellings ranging in size from 3,055 to 3,548

¹ The Board finds the best description of the subject property is found in the subject's property record card provided by the board of review.

square feet of living area. The dwellings were built from 1926 to 1951. The comparables each have a basement, three of which have finished area. Each comparable has central air conditioning and a garage ranging in size from 399 to 648 square feet of building area. The appellant reported the comparables sold from December 2019 to September 2020 for prices ranging from \$583,000 to \$675,000 or from \$190.83 to \$207.86 per square foot of living area, including land. Based on this evidence, the appellant requested the subject's assessment be reduced to \$221,223, which would reflect a market value of \$663,735 or \$195.91 per square foot of living area, including land, when using the statutory level of assessment of 33.33%.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$310,410. The subject's assessment reflects a market value of \$929,371 or \$274.31 per square foot of living area, land included, when using the 2020 three-year average median level of assessment for DuPage County of 33.40% as determined by the Illinois Department of Revenue.

The board of review submitted an assessment data sheet which lists the appellant's comparables and the township assessor's comparables. The board of review also submitted property record cards for the subject and both parties' comparables, along with a location map depicting the locations of all the comparables presented by the parties in relation to the subject property. The appellant's comparables were described as having sites that range in size from 11,744 to 14,490 square feet of land area. The comparable dwellings have exterior constructions of frame and masonry and either one or two fireplaces. The board of review reported that the appellant's comparable #3 has 3,271 square feet of living area and sold in August 2020 for a price of \$583,000 or \$178.23 per square foot of living area, including land. The appellant's comparable #2 reportedly has a 320 square foot basement garage and 440 square foot detached garage.

In support of its contention of the correct assessment, the board of review, through the township assessor submitted information on three comparable sales with the same assessment neighborhood code as the subject. The comparables have sites that range in size from 10,117 to 18,890 square feet of land area. The comparables are improved with two-story dwellings of masonry or frame and masonry exterior construction ranging in size from 2,915 to 3,273 square feet of living area, respectively. The dwellings were built from 1937 to 1998. The comparables each have a basement, two of which have finished area. Each comparable has central air conditioning, one or three fireplaces and a garage ranging in size from 399 to 744 square feet of building area. The comparables sold from May 2017 to July 2019 for prices ranging from \$900,000 to \$924,000 or from \$282.31 to \$308.75 per square foot of living area, including land. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The record contains seven suggested comparable sales for the Board's consideration. The Board has given less weight to the appellant's comparable #2 due to its older dwelling age when compared to the subject. The Board has given reduced weight to board of review comparables #1 and #2 since their sale dates occurred in 2017 or 2018, which are less proximate in time to the lien date at issue than the remaining comparable sales in the record and are thus less likely to be indicative of the subject's market value as of January 1, 2020.

The Board finds the best evidence of market value to be the appellant's comparable sales #1, #3 and #4, along with board of review comparable #3, which sold proximate in time to the assessment date at issue and are similar to the subject in location, dwelling size, design, age and some features. The comparables sold from July 2019 to August 2020 for prices ranging from \$583,000 to \$900,000 or from \$178.23 to \$308.75 per square foot of living area, including land. The subject's assessment reflects a market value of \$929,371 or \$274.31 per square foot of living area, including land, which falls above the range established by the best comparable sales in the record in terms of overall market value but within the range on a price per square foot basis. After considering adjustments to the best comparables for differences when compared to the subject, the Board finds the subject's estimated market value as reflected by its assessment is excessive. Therefore, based on this record the Board finds a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
