

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Joseph Chandy  
DOCKET NO.: 20-08488.001-R-1  
PARCEL NO.: 03-35-110-010

The parties of record before the Property Tax Appeal Board are Joseph Chandy, the appellant, by Jessica Hill-Magiera, Attorney at Law in Lake Zurich; and the DuPage County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **DuPage** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$60,010  
**IMPR.:** \$184,480  
**TOTAL:** \$244,490

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the DuPage County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a 2-story dwelling of brick and frame exterior construction with 3,493 square feet of living area. The dwelling was constructed in 2001. Features of the home include a basement, central air conditioning, a fireplace and a 480 square foot garage. The property has a 12,500 square foot site and is located in Elmhurst, Addison Township, DuPage County.

The appellant contends overvaluation as the basis of the appeal. In support of this argument the appellant submitted information on seven comparable sales located within 1.00 mile from the subject. These comparables are described as 2-story dwellings built from 2001 to 2005 and range in size from 3,260 to 3,616 square feet of living area. Each comparable has a basement, central air conditioning, one or two fireplaces and a garage ranging in size from 410 to 708 square feet of building area. The comparables sold from June 2019 to September 2020 for prices ranging from \$590,000 to \$750,000 or from \$174.92 to \$209.85 per square foot of living area,

land included. Based on this evidence, the appellant requested a reduction in the subject's total assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$258,280. The subject's assessment reflects a market value of \$773,293 or \$221.38 per square foot of living area, land included, when using the 2020 three-year average median level of assessment for DuPage County of 33.40% as determined by the Illinois Department of Revenue.

In response to the appellant's evidence, the board of review submitted a comparable report of the appellant's comparable sales that was prepared by the township assessor. The report disclosed the appellant's comparables have sites ranging in size from 7,260 to 8,700 square feet of land area and comparables #4, #6 and #7 have finished basement area, all of which were not reported by the appellant.

In support of its contention of the correct assessment the board of review submitted information through the township assessor on six comparable sales with same assessment neighborhood code as the subject. The comparables are described as 2-story dwellings of frame, brick or frame and brick exterior construction built from 1952 to 2006 on sites ranging in size from 7,980 to 10,890 square feet of land area. The dwellings range in size from 3,102 to 3,727 square feet of living area. The comparables each have a basement, with one having finished area. Other features include central air conditioning, one fireplace, and a garage ranging in size from 399 to 595 square feet of building area. These comparables sold from June 2017 to July 2018 for prices ranging from \$699,900 to \$815,000 or from \$212.92 to \$249.01 per square foot of living area, land included. The board of review also provided a location map of both parties' comparable sales in relation to the subject property, property record cards and exterior photographs. Based on this evidence, the board of review requested confirmation of the subject's assessment.

In written rebuttal, counsel for the appellant contended that the board of review comparables are not comparable since they sold 2017 and 2018 which are remote in time to the January 1, 2020 assessment date. In a rebuttal grid analysis, counsel suggested that the appellant's comparables #1, #4, #5 and #6 are the best comparable sales in the record and contended the subject's assessment should be reduced.

### **Conclusion of Law**

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The Board finds the parties submitted 13 comparables sales to support their respective positions. The Board gives less weight to appellant's comparable #2 which appears to be an outlier as it sold considerably less than the other comparables. The Board gives less weight to appellant's comparables #4, #6 and #7 which have finished basement area that is not a feature of the subject.

The Board gives less weight to the board of review comparables as they sold in 2017 and 2018 which are less proximate in time to the January 1, 2020 assessment date than the other sales in the record.

The Board finds the best evidence of market value to be the appellant's comparables #1, #3 and #5 which sold proximate in time to the assessment date at issue and are relatively similar to the subject in location, age, dwelling size and features. These comparables sold in January and September 2020 for prices ranging from \$667,500 to \$750,000 or from \$198.61 to \$207.41 per square foot of living area, including land. The subject's assessment reflects a market value of \$773,293 or \$221.38 per square foot of living area, including land, which falls above the range established by the best comparables sales in this record. Therefore, after considering adjustments to the best comparables for differences when compared to the subject, the Board finds the subject's estimated market value as reflected by the assessment is excessive and a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
