

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Mary Ann Campeglia
DOCKET NO.: 20-08490.001-R-1
PARCEL NO.: 03-18-413-013

The parties of record before the Property Tax Appeal Board are Mary Ann Campeglia, the appellant, by Jessica Hill-Magiera, Attorney at Law in Lake Zurich; and the DuPage County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **DuPage** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$49,210
IMPR.: \$135,260
TOTAL: \$184,470

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the DuPage County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of brick and frame exterior construction with 3,512 square feet of living area. The dwelling was constructed in 1989. Features of the home include a basement, central air conditioning, one fireplace and a 690 square foot garage. The property has an approximately 9,000 square foot site and is located in Addison, Addison Township, DuPage County.

The appellant contends overvaluation as the basis of the appeal. In support of this argument the appellant submitted information on three comparable sales located within 0.19 of a mile from the subject property. The comparables are improved with two-story dwellings ranging in size from 3,306 to 3,420 square feet of living area that were built in either 1988 or 1989. Each comparable has a basement, central air conditioning, one or two fireplaces and a garage ranging in size from 484 to 506 square feet of building area. The appellant reported the properties sold from

December 2019 to October 2020 for prices ranging from \$382,000 to \$499,900 or from \$111.70 to \$149.67 per square foot of living area, land included. Based on this evidence, the appellant requested the subject's total assessment be reduced to \$168,182 which reflects a market value of \$504,596 or \$143.68 per square foot of living area, land included, when applying the statutory level of assessment of 33.33%.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$184,470. The subject's assessment reflects a market value of \$552,305 or \$157.26 per square foot of living area, land included, when using the 2020 three-year average median level of assessment for DuPage County of 33.40% as determined by the Illinois Department of Revenue.

The board of review submitted property record cards together with a Comparable Report containing supplemental property details for the appellant's comparables. The property record card for the appellant's comparable #3 reports a sale price of \$385,000 or \$112.57. The property record cards for the appellant's comparables report site sizes ranging from 8,008 to 9,840 square feet of land area, unfinished basements and exterior construction of brick or brick and frame materials.

In support of its contention of the correct assessment the board of review submitted information on three comparable sales located in the same assessment neighborhood code as the subject property. The comparables have sites that range in size from 8,400 to 18,130 square feet of land area and are improved with two-story dwellings of brick or brick and frame exterior construction ranging in size from 3,334 to 3,766 square feet of living area, each built in 1989. Each comparable has an unfinished basement, central air conditioning, one or two fireplaces and a garage ranging in size from 602 to 792 square feet of building area. The properties sold from February 2018 to October 2019 for prices ranging from \$540,000 to \$710,000 or from \$155.85 to \$188.53 per square foot of living area, land included. Based on this evidence, the board of review requested the subject's assessment be confirmed.

In rebuttal, the appellant's attorney critiqued the board of review's comparables #1 and #3 arguing these occurred in 2018 too remote to be comparable. Counsel submitted two rebuttal grids, one grid with both parties' comparables and one grid containing its suggested "best comparable sales for further clarity."

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales, or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted six comparable sales for the Board's consideration. The Board gives less weight to appellant comparable #2 which has a sale price and per square foot sale price roughly 20% below the next lowest sale in the record and therefore appears to be an outlier. The Board

gives less weight to board of review comparables #1 and #3 which sold in 2018, less proximate to the January 1, 2020 assessment date than other comparables in the record.

The Board finds the best evidence of market value to be appellant comparables #1 and #3 along with board of review comparable #2 which sold proximate to the assessment date at issue and are similar to the subject in location, age, design and other features, although, each of these comparables has a smaller dwelling size when compared to the subject. These best comparables sold from October 2019 to October 2020 for prices ranging from \$475,000 to \$540,000 or from \$143.68 to \$161.97 per square foot of living area, including land. The subject's assessment reflects a market value of \$552,305 or \$157.26 per square foot of living area, including land, which falls above the range established by the best comparable sales in this record on an overall market value basis and within the range on a per square foot basis. Given the subject's larger dwelling size relative to the best comparables, a higher market value appears to be logical. Therefore, after considering appropriate adjustments to the comparables for differences from the subject, the Board finds a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
