

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: John Kurien
DOCKET NO.: 20-20162.001-R-1
PARCEL NO.: 23-34-310-002-0000

The parties of record before the Property Tax Appeal Board are John Kurien, the appellant, by attorney Robert Rosenfeld of Robert H. Rosenfeld & Associates, LLC in Northbrook, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$11,171
IMPR.: \$25,516
TOTAL: \$36,687

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of frame and masonry exterior construction with 2,337 square feet of living area. The dwelling is approximately 16 years old. Features of the home include a full unfinished basement, central air conditioning, one fireplace, 2½ bathrooms, and a two-car attached garage. The property has a 6,476 square foot site located in Orland Park, Palos Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables composed of class 2-78 properties of frame and masonry exterior construction that have either 2,337 or 2,449 square feet of living area. The homes range in age from 15 to 19 years old. Each property has a full unfinished basement, central air conditioning, one fireplace,

2½ bathrooms, and a two-car attached garage. The comparables have the same neighborhood code as the subject property. Their improvement assessments range from \$22,328 to \$23,768 or from \$9.55 to \$9.92 per square foot of living area. The appellant requested the subject's improvement assessment be reduced to \$22,832.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$36,687. The subject property has an improvement assessment of \$25,516 or \$10.92 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables improved with two-story dwellings of frame and masonry exterior construction that are identical to the subject dwelling in size, age, and features. These properties have the same classification code and neighborhood code as the subject property. Their improvement assessments range from \$30,374 to \$30,606 or from \$13.00 to \$13.10 per square foot of living area.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains eight comparables submitted by the parties that are similar to the subject in location, age, style, size and features. These comparables have improvement assessments that range from \$22,328 to \$30,606 or from \$9.55 to \$13.10 per square foot of living area. The subject's improvement assessment of \$25,516 or \$10.92 per square foot of living area falls within the range established by the comparables in this record, demonstrating the subject is being equitably assessed.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. A practical uniformity, rather than an absolute one, is the test. *Apex Motor Fuel Co. v. Barrett*, 20 Ill. 2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not all assessed at identical levels, all that the constitution requires is a practical uniformity which exists based on the evidence in this record.

Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
