

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Michael Young
DOCKET NO.: 20-20188.001-R-1
PARCEL NO.: 16-08-118-013-0000

The parties of record before the Property Tax Appeal Board are Michael Young, the appellant, by attorney Robert Rosenfeld of Robert H. Rosenfeld & Associates, LLC in Northbrook; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$8,122
IMPR.: \$55,491
TOTAL: \$63,613

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of stucco exterior construction with 3,309 square feet of living area. The dwelling is approximately 120 years old. Features of the home include a full unfinished basement, central air conditioning and a fireplace. The property has an 8,550 square foot site and is located in Oak Park, Oak Park Township, Cook County. The subject is classified as a class 2-06 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on three equity comparables that have the same assessment neighborhood code as the subject. The comparables are class 2-06 properties improved with two-story¹ dwellings of stucco exterior construction

ranging in size from 2,809 to 4,322 square feet of living area. The dwellings are 103 to 115 years old. Each comparable has a full unfinished basement, central air conditioning and a 2-car garage. Two comparables each have one or three fireplaces. The comparables have improvement assessments that range from \$44,427 to \$66,525 or from \$14.62 to \$15.82 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$50,562 or \$15.28 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$63,613. The subject property has an improvement assessment of \$55,491 or \$16.77 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables that have the same assessment neighborhood code as the subject, are located on the same block as the subject property and three comparables are also on the same street as the subject. The comparables are class 2-06 properties improved with two-story dwellings of frame and stucco exterior construction ranging in size from 2,530 to 2,856 square feet of living area. The dwellings are 98 to 127 years old. The comparables each have a full unfinished basement. Three comparables have central air conditioning and a two-car, a three-car or a four-car garage. Each comparable has a fireplace. The comparables have improvement assessments that range from \$47,114 to \$62,888 or from \$17.38 to \$24.86 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains a total of seven suggested equity comparables for the Board's consideration. The Board has given less weight to the appellant's comparables #1 and #2 which have dwelling sizes that are 21% and 31% larger than the subject, respectively. The Board has given reduced weight to board of review comparables #2 and #4 which have dwelling sizes that are 20% and 24% smaller than the subject. The Board has also given reduced weight to board of review comparable #3 as it has finished basement area, unlike the subject.

The Board finds the best evidence of assessment equity to be the appellant's comparable #3 and board of review comparable #1, which are similar to the subject in location, design, age and some features. However, both comparables are approximately 15% smaller in dwelling size when compared to the subject and each comparable has a garage unlike the subject, suggesting adjustments would be required to make the comparables more equivalent to the subject. Nevertheless, these best comparables have improvement assessments \$44,427 and \$49,637 or

\$15.82 and \$17.38 per square foot of living area, respectively. The subject's improvement assessment of \$55,491 or \$16.77 per square foot of living area is greater than the two best comparables in the record in terms of total improvement assessment but is bracketed by the comparables on a per square foot basis. The subject's higher total improvement assessment appears to be logical given its larger dwelling size. Based on this record and after considering adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
