

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Vanessa Johnson
DOCKET NO.: 20-20202.001-R-1
PARCEL NO.: 16-07-211-001-0000

The parties of record before the Property Tax Appeal Board are Vanessa Johnson, the appellant, by attorney Robert Rosenfeld of Robert H. Rosenfeld & Associates, LLC in Northbrook; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$9,675
IMPR.: \$60,032
TOTAL: \$69,707

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of stucco exterior construction with 3,314 square feet of living area. The dwelling is approximately 112 years old. Features of the home include a full unfinished basement, central air conditioning, four full bathrooms, a fireplace and a 2.5-car garage. The property has an approximately 8,600 square foot site and is located in Oak Park, Oak Park Township, Cook County. The subject is classified as a class 2-06 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables that have the same assessment neighborhood code as the subject. The comparables are class 2-06 properties that are improved with two-story¹ dwellings of stucco exterior

construction ranging in size from 3,114 to 4,275 square feet of living area. The dwellings are 108 to 133 years old. The comparables each have a full basement, two of which have finished area. Each comparable has central air conditioning, two or three full baths and a 2-car or a 3-car garage. Three comparables each have a half bath and three comparables each have one or two fireplaces. The comparables have improvement assessments that range from \$46,758 to \$69,861 or from \$15.02 to \$17.10 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$54,217 or \$16.36 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$69,707. The subject property has an improvement assessment of \$60,032 or \$18.11 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables that have the same assessment neighborhood code as the subject. The comparables are class 2-06 properties that are improved with two-story dwellings of stucco exterior construction ranging in size from 2,520 to 3,279 square feet of living area. The dwellings are 112 or 122 years old. The comparables each have a full or partial basement, one of which has finished area. Three comparables have central air conditioning, each comparable has two or three full bathrooms, two comparables each have one half bath, three comparables each have a fireplace and three comparables each have a 2-car garage. The comparables have improvement assessments that range from \$52,026 to \$59,978 or from \$18.11 to \$20.65 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of eight comparable properties for the Board's consideration. The Board has given less weight to the appellant's comparables #1, #2 and #3, as well as board of review comparables #1, #2 and #4 which differ from the subject in dwelling size or they have finished basement area, unlike the subject. Additionally, board of review comparable #4 lacks a garage, a feature of the subject.

The Board finds the best evidence of assessment equity to be the appellant's comparable #4 and board of review comparable #3, which are relatively similar to the subject in location, dwelling size, design and age. However, the Board finds both comparables have a fewer number of bathrooms and smaller garages when compared to the subject, suggesting upward adjustments would be required to make the comparables more equivalent to the subject. Nevertheless, the

comparables have improvement assessments of \$54,193 and \$57,501 or \$17.10 and \$18.11 per square foot of living area. The subject's improvement assessment of \$60,032 or \$18.11 per square foot of living area is greater than the two best comparables in the record in terms of total improvement assessment and equal to one of the two comparables on a per square foot basis. The subject's higher improvement assessment appears to be logical given its superior number of bathrooms and larger garage size. Therefore, based on this record and after considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
