

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Ronald Dell  
DOCKET NO.: 20-20359.001-R-1  
PARCEL NO.: 23-12-307-037-0000

The parties of record before the Property Tax Appeal Board are Ronald Dell, the appellant, by Amy C. Floyd, Attorney at Law in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$9,346  
**IMPR.:** \$16,600  
**TOTAL:** \$25,946

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a two-story dwelling of frame and masonry construction with 2,760 square feet of living area. The dwelling is approximately 31 years old. Features of the home include a partial basement with a recreation room, central air conditioning, one fireplace, 2½ bathrooms, and a two-car garage. The property has a 13,847 square foot site located in Palos Hills, Palos Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables improved with two-story dwellings of frame and masonry exterior construction that range in size from 2,612 to 3,146 square feet of living area. The homes range in age from 25 to 33 years old. Each comparable has a full basement with one having finished area, central air conditioning, one

fireplace, 2½ bathrooms, and an attached two-car or three-car garage.<sup>1</sup> The comparables have the same classification code and neighborhood code as the subject property. These properties have improvement assessments ranging from \$9,198 to \$17,840 or from \$3.32 to \$6.03 per square foot of living area. The appellant requested the subject's improvement assessment be reduced to \$11,868.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$30,600. The subject property has an improvement assessment of \$21,254 or \$7.70 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables improved with two-story dwellings of frame and masonry construction that range in size from 2,311 to 2,426 square feet of living area. The homes range in age from 25 to 32 years old. One comparable has a full unfinished basement and three comparables have crawl space foundations. Each property has central air conditioning, 2½ bathrooms, and a 2-car or a 2½-car garage. Three comparables have one fireplace. These properties have improvement assessments ranging from \$19,920 to \$24,428 or from \$8.43 to \$10.07 per square foot of living area.

### **Conclusion of Law**

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The Board finds the best evidence of assessment equity to be the appellant's comparables #2, #3 and #4 as these properties are improved with homes more similar to the subject dwelling in size than the remaining comparables in this record. Additionally, board of review comparables #1, #3 and #4 have crawl space foundations, unlike the subject's full basement with finished area, which further detracts from the weight that can be given these comparables. The three comparables submitted by the appellant that are most similar to the subject property have improvement assessments that range from \$9,198 to \$17,840 or from \$3.52 to \$6.03 per square foot of living area. The subject's improvement assessment of \$21,254 or \$7.70 per square foot of living area falls above the range established by the best comparables in this record. Based on this record the Board finds the appellant demonstrated with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is justified.

<sup>1</sup> Copies of photographs of the comparables submitted by the appellant depict the homes as having either a two-car or a three-car attached garage.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
