

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Catherine Barrow
DOCKET NO.: 20-20489.001-R-1
PARCEL NO.: 02-22-223-038-0000

The parties of record before the Property Tax Appeal Board are Catherine Barrow, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld & Associates, LLC in Northbrook; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$3,416
IMPR.: \$25,130
TOTAL: \$28,546

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of frame and masonry exterior construction with 1,813 square feet of living area. The dwelling is approximately 50 years old. Features of the home include a basement with finished area, central air conditioning, one fireplace, and a 2-car garage. The property has a 9,760 square foot site and is located in Palatine, Palatine Township, Cook County. The subject is classified as a class 2-07 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables that are located in the same neighborhood code as the subject property. The comparables are improved with class 2-07 dwellings of frame exterior construction ranging in size from 1,804 to 1,930 square feet of living area. The homes range in age from 31 to 37 years

old. Each comparable has an unfinished basement, central air conditioning, and a 2-car garage. Two comparables each have one fireplace. The comparables have improvement assessments ranging from \$23,354 to \$25,978 or from \$12.95 to \$13.62 per square foot of living area. Based on this evidence, the appellant requested that the subject's total improvement assessment be reduced.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$28,546. The subject property has an improvement assessment of \$25,130 or \$13.86 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables that are located in the same neighborhood code as the subject property. The comparables are improved with 2-story, class 2-07 dwellings of frame or masonry exterior construction ranging in size from 1,566 to 1,980 square feet of living area. The homes range in age from 40 to 61 years old. Each comparable has a basement, two of which have finished area, and either a 1-car or a 2-car garage. Three comparables each have central air conditioning and one comparable has one fireplace. The comparables have improvement assessments ranging from \$24,583 to \$28,885 or from \$13.66 to \$16.75 per square foot of living area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight suggested equity comparables for the Board's consideration. The Board finds the best evidence of assessment equity to be board of review comparables #1, #2, and #3 which are more similar to the subject in location, design, age, and dwelling size with varying degrees of similarity in other property characteristics. These three comparables have improvement assessments ranging from \$24,583 to \$28,885 or from \$13.66 to \$14.65 per square foot of living area. The subject's improvement assessment of \$25,130 or \$13.86 per square foot of living area falls within the range established by the best comparables in this record. The Board gives less weight to the appellant's comparables and board of review comparable #4 due to differences in age or dwelling size when compared to the subject. Based on this record and after considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
