

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Ten Chu
DOCKET NO.: 20-20495.001-R-1
PARCEL NO.: 02-28-405-008-0000

The parties of record before the Property Tax Appeal Board are Ten Chu, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld & Associates, LLC in Northbrook; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$7,669
IMPR.: \$62,784
TOTAL: \$70,453

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of masonry exterior construction with 4,660 square feet of living area. The dwelling is approximately 21 years old. Features of the home include a basement with finished area, central air conditioning, and a 3-car garage. The property has a 12,271 square foot site and is located in Palatine, Palatine Township, Cook County. The subject is classified as a class 2-08 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables that are located in the same neighborhood code as the subject property. The comparables are improved with class 2-08 dwellings of masonry of frame and masonry exterior construction ranging in size from 3,810 to 4,390 square feet of living area. The homes range in

age from 4 to 30 years old. Each comparable has an unfinished basement, central air conditioning, from one to three fireplaces, and either a 2-car or a 3-car garage. The comparables have improvement assessments ranging from \$45,145 to \$53,204 or from \$11.58 to \$12.30 per square foot of living area. Based on this evidence, the appellant requested that the subject's total improvement assessment be reduced.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$70,453. The subject property has an improvement assessment of \$62,784 or \$13.47 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables that are located in the same neighborhood code and on the same block as the subject property. The comparables are improved with 2-story, class 2-08 dwellings of masonry exterior construction ranging in size from 4,170 to 4,604 square feet of living area. The homes are either 19 or 21 years old. Each comparable has a basement, one of which has finished area, central air conditioning, one fireplace, and a 3-car garage. The comparables have improvement assessments ranging from \$56,651 to \$63,293 or from \$13.54 to \$13.90 per square foot of living area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight suggested equity comparables for the Board's consideration. The Board finds the best evidence of assessment equity to be the board of review comparables which are overall most similar to the subject in location, design, age, and dwelling size with varying degrees of similarity in other property characteristics. These comparables have improvement assessments ranging from \$56,651 to \$63,293 or from \$13.54 to \$13.90 per square foot of living area. The subject's improvement assessment of \$62,784 or \$13.47 per square foot of living area falls within the range established by the best comparables in this record on an overall basis but below on a per square foot basis. The Board gives less weight to the appellant's comparables which are less similar in dwelling size and/or age to the subject than other comparables in this record. Based on this record and after considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
