

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Rich Wolnik
DOCKET NO.: 20-20532.001-R-1
PARCEL NO.: 02-10-226-006-0000

The parties of record before the Property Tax Appeal Board are Rich Wolnik, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld & Associates, LLC in Northbrook; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$2,925
IMPR.: \$14,654
TOTAL: \$17,579

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story townhome of frame exterior construction with 1,196 square feet of living area. The townhome is approximately 35 years old. Features of the home include a crawl space foundation, central air conditioning 1 fireplace and a 1-car garage. The property has a 2,340 square foot site and is located in Palatine, Palatine Township, Cook County. The subject is classified as a class 2-95 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four comparables located within the same neighborhood code as the subject. The comparables are improved with class 2-95 townhomes of frame exterior construction containing 1,389 square feet of living area that are 35 years old. Each comparable has a concrete slab foundation, central air conditioning

and a 1-car garage. Two comparables each have 1 fireplace. The comparables have improvement assessments ranging from \$13,883 to \$15,272 or from \$9.99 to \$10.99 per square foot of living area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$12,606 or \$10.54 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$17,579. The subject property has an improvement assessment of \$14,654 or \$12.25 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four comparables located within the same neighborhood code as the subject. The comparables are improved with class 2-95, two-story townhomes of frame exterior construction containing 1,196 square feet of living area that are each 35 years old. Three comparables each have crawl space foundation, and one comparable has an unfinished basement and a 1-car garage. Three comparables each have central air conditioning, and three comparables each have 1 fireplace. The comparables have improvement assessments ranging from \$14,651 to \$15,144 or from \$12.25 to \$12.66 per square foot of living area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight suggested comparables for the Board's consideration. The Board gives less weight to the appellant's comparables which are less similar to the subject in dwelling size than the board of review's comparables. The Board also gives less weight to the board of review comparable #4 which has a basement, unlike the subject that lacks a basement.

The Board finds the best evidence of assessment equity to be board of review comparables #1, #2 and #3 which are almost identical in features to the subject in every aspect, except one comparable lacks central air conditioning. These three comparables have improvement assessments ranging from \$14,651 to \$14,711 or from \$12.25 to \$12.30 per square foot of living area. The subject's improvement assessment of \$14,654 or \$12.25 per square foot of living area falls within the range of the best comparables in this record on an overall basis and matches the comparable at the lowest end of the per-square-foot range. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
