

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Kenneth J. O'Connor
DOCKET NO.: 20-20848.001-R-1
PARCEL NO.: 23-14-206-019-0000

The parties of record before the Property Tax Appeal Board are Kenneth J. O'Connor, the appellant, by attorney Kevin Fanning, of Fanning Law, LLC in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$4,455
IMPR.: \$14,075
TOTAL: \$18,530

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property is improved with a multi-level dwelling of frame and masonry exterior construction containing 1,296 square feet of living area. The dwelling is approximately 47 years old. Features of the property include a partial basement with a formal recreation room, central air conditioning, 2½ bathrooms, and a detached two-car garage. The property has a 6,600 square foot site located in Palos Hills, Palos Township, Cook County. The subject is classified as a class 2-34 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends inequity with respect to the improvement assessment as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables composed of class 2-34 properties of masonry or frame and masonry exterior construction that range in size from 1,448 to 2,120 square feet of living area. The homes range in age from 53 to 62 years old. Each comparable has a partial basement with a recreation room,

central air conditioning, two bathrooms, and a two-car attached garage. The comparables have the same neighborhood code as the subject and are located approximately 2.5 miles from the subject property. Their improvement assessments range from \$740 to \$8,891 or from \$.51 to \$4.19 per square foot of living area. The appellant requested the subject's improvement assessment be reduced to \$3,576.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$18,530. The subject property has an improvement assessment of \$14,075 or \$10.86 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables improved with multi-level single family dwellings of frame and masonry exterior construction that range in size from 1,210 to 1,356 square feet of living area. The dwellings range in age from approximately 34 to 47 years old. Each comparable has a partial basement with a formal recreation room, central air conditioning, 1½ or 2 bathrooms, and a two-car garage. Comparable #3 also has a fireplace. The comparables have the same classification code and neighborhood code as the subject property. The board of review indicated the comparables are located within approximately ¼ of a mile from the subject property. These properties have improvement assessments that range from \$14,351 to \$19,045 or from \$11.55 to \$14.04 per square foot of living area.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The Board finds the best evidence of assessment equity to be the board of review comparables as these properties are improved with homes more similar to the subject in property in location and dwelling size than are the comparables provided by the appellant. These comparables have improvement assessments that range from \$14,351 to \$19,045 or from \$11.55 to \$14.04 per square foot of living area. The subject's improvement assessment of \$14,075 or \$10.86 per square foot of living area falls below the range established by the best comparables in this record. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
