

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Dimitrios Mellos
DOCKET NO.: 20-20958.001-R-1
PARCEL NO.: 11-31-303-059-0000

The parties of record before the Property Tax Appeal Board are Dimitrios Mellos, the appellant, by attorney Spiro G. Zarkos of Verros Berkshire, PC in Oakbrook Terrace; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$9,635
IMPR.: \$26,250
TOTAL: \$35,885

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story multi-family building of masonry exterior construction with 4,536 square feet of building area. The building is approximately 25 years old. The building features a full basement that is finished with an apartment. The property has a 5,668 square foot site and is located in Chicago, Rogers Park Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables that have the same assessment neighborhood code as the subject and are located from 1.2 to 1.7 miles from the subject property. The comparables are class 2-11 properties improved with multi-family buildings of masonry exterior construction ranging in size from

3,086 to 6,230 square feet of building area. The buildings are 63 to 115 years old. One comparable has a concrete slab foundation and three comparables each have a full basement, two of which are finished with an apartment. Three comparables each have either a two-car or a three-car garage. The comparables have improvement assessments that range from \$14,805 to \$31,656 or from \$4.79 to \$5.08 per square foot of building area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$22,589 or \$4.98 per square foot of building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$35,885. The subject property has an improvement assessment of \$26,250 or \$5.79 per square foot of building area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables, two of which are located in the same block as the subject property and have the same assessment neighborhood code as the subject. The comparables are class 2-11 properties improved with two-story multi-family buildings of masonry exterior construction ranging in size from 3,976 to 6,489 square feet of living area. The buildings are 66 to 94 years old. Each comparable has a full basement, one of which is finished with an apartment. Three comparables each have a 3-car or a 3.5-car garage. The comparables have improvement assessments that range from \$22,991 to \$35,309 or from \$5.12 to \$5.78 per square foot of building area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of eight comparable properties for the Board's consideration. The Board has given less weight to the appellant's comparables #1, #2 and #4, as well as board of review comparables #1, #3 and #4 which are 65 to 90 years older than the subject and/or less similar to the subject in building size. Additionally, these six comparables each have a garage, not a feature of the subject.

The Board finds the best evidence of assessment equity to be the appellant's comparable #3 and board of review comparable #2, which have the same assessment neighborhood code as the subject. However, the Board finds these two comparables are 38 and 41 years older than the subject, respectively. Additionally, the appellant's comparable #3 has a larger building size with a concrete slab foundation in contrast to the subject's basement foundation that is finished with an apartment and board of review comparable #2 has a smaller building size with no basement apartment, suggesting adjustments would be required to make the comparables more equivalent

to the subject. Nevertheless, the comparables have improvement assessments of \$22,991 and \$29,555 or \$5.02 and \$5.78 per square foot of building area. The subject's improvement assessment of \$26,250 or \$5.79 per square foot of building area is bracketed by the two best comparables in the record in terms of total improvement assessment but slightly above the comparables on a per square foot basis, which appears to be justified given its newer building age. Therefore, based on this record and after considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
