The parties of record before the Property Tax Appeal Board are Linas Kliarskis, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld & Associates, LLC in Northbrook; and the Cook County Board of Review.

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 1.5-story dwelling of frame exterior construction with 1,378 square feet of living area. The dwelling is approximately 107 years old. Features of the home include a partial unfinished basement, central air conditioning and a 2-car garage. The property has a 1,378 square foot site and is located in Lemont, Lemont Township, Cook County. The subject is classified as a class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity regarding the improvement as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables located within the same assessment neighborhood code as the subject. The comparables are improved with class 2-03 dwellings of frame exterior construction ranging in

size from 1,183 to 1,524 square feet of living area. The comparables are 63 to 111 years old. Three comparables have either a crawl space or slab foundation. One comparable has a full unfinished basement. Each comparable has central air conditioning and a 1-car or a 2-car garage. Two comparables each have a fireplace. The comparables have improvement assessments ranging from \$4,930 to \$8,872 or from \$3.23 to \$6.52 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$18,938. The subject property has an improvement assessment of \$10,756 or \$7.81 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables within the same assessment neighborhood code as the subject. The comparables are improved with class 2-03 dwellings of frame or frame and masonry exterior construction ranging in size from 1,088 to 1,773 square feet of living area. The comparables are 4 to 71 years old. Three comparables have either a crawl space or slab foundation. One comparable has a full unfinished basement and central air conditioning. Three comparables each have a 2-car garage. The comparables have improvement assessments ranging from \$24,832 to \$36,760 or from \$19.34 to \$31.23 per square foot of living area.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The record contains eight equity comparables for the Board's consideration. The Board gives less weight to the board of review comparables due to differences in age, dwelling size and/or lack of central air conditioning when compared to the subject.

The Board finds the best evidence of assessment equity to be the appellant's comparables which overall are more similar to the subject in age, dwelling size, and features. These comparables have improvement assessments that range from \$4,930 to \$8,872 or from \$3.23 to \$6.52 per square foot of living area. The subject's improvement assessment of \$10,756 or \$7.81 per square foot of living area falls above the range established by the best comparables in this record. Based on this record and after considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant demonstrated with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
