

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Hanna Shapiro
DOCKET NO.: 20-22773.001-R-1
PARCEL NO.: 03-01-207-027-0000

The parties of record before the Property Tax Appeal Board are Hanna Shapiro, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$8,347
IMPR.: \$36,022
TOTAL: \$44,369

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a one-story dwelling of masonry exterior construction with 2,573 square feet of living area. The dwelling is approximately 40 years old. Features of the home include an unfinished partial basement, central air conditioning, one fireplace and a two-car garage. The property has a 5,757 square foot site and is located in Northbrook, Wheeling Township, Cook County. The subject is classified as a class 2-04 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables that are located within the same neighborhood code as the subject property. Two comparables are located within the same block as the subject. The comparables are improved with class 2-04 dwellings of masonry exterior construction ranging in size from 2,302 to 2,711

square feet of living area. The dwellings range in age from 36 to 40 years old. The comparables each have an unfinished partial basement, central air conditioning, one fireplace and a two-car garage. The comparables have improvement assessments ranging from \$23,999 to \$32,831 or from \$10.43 to \$13.07 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$30,001 or \$11.66 per square foot of living area.

The appellant's submission included a copy of the Cook County Board of Review final decision dated February 22, 2021 disclosing the subject has a total assessment of \$44,369.¹ The petition filed by the appellant also depicted that the subject has an improvement assessment of \$36,022 or \$14.00 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on three equity comparables that are located within the same neighborhood code and block as the subject property. The comparables are improved with one-story class 2-04 dwellings of masonry exterior construction ranging in size from 2,453 to 2,512 square feet of living area. The dwellings range in age from 36 to 40 years old. Each comparable has an unfinished full or partial basement, central air conditioning, one fireplace and a two-car garage. The comparables have improvement assessments ranging from \$41,731 to \$42,234 or from \$16.65 to \$17.12 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties provided seven suggested equity comparables to support their respective positions before the Property Tax Appeal Board. The Board finds the parties' comparables are relatively similar to the subject in age, dwelling size and features. These comparables have improvement assessments ranging from \$23,999 to \$42,234 or from \$10.43 to \$17.12 per square foot of living area. The subject's improvement assessment of \$36,022 or \$14.00 per square foot of living area falls within the range established by the comparables in this record. After considering adjustments to the comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

¹ The Cook County Board of Review's Notes on Appeal contained incorrect assessment information for the subject property.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
