

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Horacio Lagunas
DOCKET NO.: 20-23691.001-R-1
PARCEL NO.: 24-36-229-028-0000

The parties of record before the Property Tax Appeal Board are Horacio Lagunas, the appellant, by Amy C. Floyd, Attorney at Law in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$1,365
IMPR.: \$13,795
TOTAL: \$15,160

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story building of masonry construction with 2,308 square feet of building area. The building is approximately 132 years old. Features include an unfinished full basement and a 1-car garage. The property has a 2,730 square foot site and is located in Blue Island, Worth Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the subject's improvement as the basis of the appeal. In support of this argument the appellant submitted information on four comparable properties located within the same neighborhood code as the subject. The comparables are improved with 2-story buildings of frame or masonry construction ranging in size from 2,250 to 2,688 square feet of building area. The buildings range in age from 126 to 137 years old and have unfinished full basements. One comparable has central air conditioning. The appellant failed to disclose whether the comparables had garages, however, from the

photographic evidence it appears the appellant's comparables lack garages. The comparables have improvement assessments ranging from \$10,370 to \$11,211 or from \$3.91 to \$4.70 per square foot of building area.

Based on this evidence the appellant requested a reduction in the subject's assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$15,160. The subject property has an improvement assessment of \$13,795 or \$5.98 per square foot of building area.

In support of its contention of the correct assessment the board of review submitted information on four comparable properties located within the same neighborhood code as the subject. The comparables are improved with 1.5-story or 2-story buildings of frame or masonry construction ranging in size from 1,152 to 2,924 square feet of building area. The buildings range in age from 67 to 108 years old and have unfinished full basements. Three comparables each have a 2-car garage. The comparables have improvement assessments ranging from \$11,306 to \$16,248 or from \$5.30 to \$11.14 per square foot of building area.

Based on this evidence the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The Board finds the best evidence of assessment equity to be the board of review's comparables #1 and #2. These comparables have varying degrees of similarity to the subject. However, each of the best comparables have a considerably larger building when compared to the subject. Nevertheless, the best comparables had improvement assessments of \$14,906 and \$16,248 or \$5.30 and \$5.56 per square foot of building area. The subject's improvement assessment of \$13,795 or \$5.98 per square foot of building area falls below the improvement assessments of the best comparables in this record on a total improvement assessment basis but above the improvement assessments on a per square foot basis. However, after considering adjustments to the best comparables for differences when compared to the subject, such as their larger building size, the Board finds the subject's higher per square foot improvement assessment is justified. The Board gave less weight to the parties' remaining comparables, due to their significantly smaller buildings and/or their lack of a garage when compared to the subject. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
