

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Jason Lawrence
DOCKET NO.: 20-25204.001-R-1
PARCEL NO.: 16-18-211-002-0000

The parties of record before the Property Tax Appeal Board are Jason Lawrence, the appellant, by attorney Christopher G. Walsh, Jr., of Walsh Law, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$4,725
IMPR.: \$36,091
TOTAL: \$40,816

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of stucco exterior construction with 2,085 square feet of living area. The dwelling is approximately 97 years old. Features of the home include a basement that is finished with a recreation room, 1.5 baths, and central air conditioning. The property has a 4,725 square foot site and is located in Oak Park, Oak Park Township, Cook County. The subject is classified as a class 2-05 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity regarding the improvement assessment as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables located within eight blocks from the subject property and within the same assessment neighborhood code as the subject. The comparables are improved with class 2-05, 2-story dwellings of stucco exterior construction ranging in size from 1,920 to 2,166 square feet of

living area. The comparables are 102 to 112 years old and have unfinished basements. Two comparables have central air conditioning. Each comparable has 2 or 2.5 baths and a 2-car garage. Two comparables have finished attics. The comparables have improvement assessments ranging from \$31,238 to \$34,203 or from \$15.79 to \$16.27 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$40,816. The subject property has an improvement assessment of \$36,091 or \$17.31 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables located within ¼ of a mile from subject property and within the same assessment neighborhood code as the subject. The comparables are improved with class 2-05, 2-story dwellings of stucco exterior construction ranging in size from 1,888 to 1,987 square feet of living area. The comparables are 100 to 112 years old and have unfinished basements. One comparable has central air conditioning. Each comparable has 1.5 baths. Two comparables each have one or two fireplaces. Two comparables each have a 2-car garage. The comparables have improvement assessments ranging from \$32,785 to \$35,600 or from \$17.31 to \$18.26 per square foot of living area.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains eight equity comparables for the Board's consideration that are relatively similar to the subject in location, design, age, and dwelling size. However, adjustments would have to be considered to the comparables for differences in features from the subject. These comparables have improvement assessments that range from \$31,238 to \$35,600 or from \$15.79 to \$18.26 per square foot of living area. The subject's improvement assessment of \$36,091 or \$17.31 per square foot of living area falls within the range established by the best comparables in this record. Based on this record and after considering adjustments to the comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
