

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Andrew Curtis
DOCKET NO.: 20-25249.001-R-1
PARCEL NO.: 16-06-213-020-0000

The parties of record before the Property Tax Appeal Board are Andrew Curtis, the appellant, by attorney Christopher G. Walsh, Jr., of Walsh Law, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$10,401
IMPR.: \$40,127
TOTAL: \$50,528

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of masonry exterior construction with 2,633 square feet of living area. The dwelling is approximately 85 years old. Features of the dwelling include an unfinished basement, one fireplace, and a 2-car garage. The property has a 7,850 square foot site and is located in Oak Park, Oak Park Township, Cook County. The subject is classified as a class 2-06 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of the inequity argument, the appellant submitted information on four equity comparables located in the same neighborhood code as the subject property. The comparables are improved with 2-story, class 2-06 dwellings of masonry exterior construction ranging in size from 2,456 to 2,604 square feet of living area. The dwellings range in age from 90 to 98 years

old. Three comparables each have a basement with two having finished area, and one comparable was reported to lack a basement. One comparable has central air conditioning. Each comparable has one fireplace and a 2-car garage. The comparables have improvement assessments ranging from \$35,975 to \$41,352 or from \$14.38 to \$16.05 per square foot of living area. Based on this evidence, the appellant requested that the subject's total improvement assessment be reduced to \$40,127 or \$15.24 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$58,000. The subject property has an improvement assessment of \$47,599 or \$18.08 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located in the same neighborhood code as the subject property. The comparables are improved with 2-story, class 2-06 dwellings of masonry or frame and masonry exterior construction ranging in size from 2,312 to 3,159 square feet of living area. The comparables range in age from 82 to 92 years old. Each comparable has a basement with three having finished area, central air conditioning, one or two fireplaces, and a 1.5-car or a 2-car garage. The comparables have improvement assessments ranging from \$47,858 to \$53,994 or from \$17.09 to \$20.70 per square foot of living area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The parties submitted eight suggested comparables for the Board's consideration. The Board finds the best evidence of assessment equity to be the appellant's comparables #3 and #4 which lack basement finish, like the subject, and are more similar to the subject in design, age, and dwelling size with varying degrees of similarity in other features. The two comparables have improvement assessments of \$41,352 and \$40,520 or \$15.88 and \$16.05 per square foot of living area, respectively. The subject's improvement assessment of \$47,599 or \$18.08 per square foot of living area falls above the two best comparables in this record and is excessive. The Board gives less weight to the parties' remaining comparables due to differences in dwelling size and/or basement finish when compared to the subject. Based on this record and after considering appropriate adjustments to the two best comparables for differences when compared to the subject, the Board finds the appellant demonstrated with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment commensurate with the appellant's request is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
