

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Courtney Wright
DOCKET NO.: 20-25699.001-R-1
PARCEL NO.: 05-29-103-052-0000

The parties of record before the Property Tax Appeal Board are Courtney Wright, the appellant(s), by attorney Noah J. Schmidt, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$75,014
IMPR.: \$112,428
TOTAL: \$187,442

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject consists of a two-story, single-family dwelling of frame construction with 6,246 square feet of living area. The dwelling is approximately 103 years old. Features of the home include a full basement with a formal recreation room, central air conditioning, five fireplaces, and a three-car garage. The property's site is 44,126 square feet, and it is located in Winnetka, New Trier Township, Cook County. The subject is classified as a class 2-09 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. In support of this argument the appellant submitted on five Class 2-09 suggested comparables with varying degrees of similarities to the subject. The appellant did not report the exact proximity of the comparables to the subject but disclosed they have the same neighborhood code as the subject.

The comparables had improvement assessments ranging from \$12.05 to \$14.74 per square foot of living area. The appellant requested the subject's total assessment be reduced to \$158,647.

The appellant also submitted a memorandum entitled "Basis or Relief, Uniformity of Assessment". The brief contained some of the same information listed in Appellants residential appeal form and argued that the Covid-19 pandemic has generally affected real estate market values in 2020. Appellant again requested a reduction in the total assessment of the subject.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$187,442. The subject property has an improvement assessment of \$112,428 or \$18.00 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located within the same subarea as the subject. The comparables are improved with two-story, single-family dwellings that range in age from 89 to 100 years and in size between with 5,968 to 6,610 square feet of living area. The comparables had an improvement assessment that ranged from \$19.75 and \$22.40 per square foot of living area. Based on this evidence, the board of review requested the assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proven by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant *did not* meet this burden of proof, and that a reduction in the subject's assessment *is not* warranted.

The Board finds the best evidence of assessment equity to be appellant's comparables #1 and #3 and the board of review's comparables #1 through #4. These comparables had improvement assessments that ranged from \$12.05 to \$22.40 per square foot of living area. The subject's improvement assessment of \$18.00 per square foot of living area falls within the range established by the best comparables in this record. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

Additionally, although argued with generalities, the appellant failed to provide sufficient evidence or argument to show the Covid-19 pandemic affected the market value of the subject. Based on this record the Board finds the appellant *did not* demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed or by a preponderance of the evidence that the subject property's market value is less than the assessed value and a reduction in the subject's assessment *is not* justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
