

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Joanna Zegarsk
DOCKET NO.: 20-26312.001-R-1
PARCEL NO.: 24-05-401-022-0000

The parties of record before the Property Tax Appeal Board are Joanna Zegarsk, the appellant, by attorney Brian P. Liston, of the Law Offices of Liston & Tsantilis, P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$3,350
IMPR.: \$15,030
TOTAL: \$18,380

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 1-story dwelling of masonry exterior construction with 1,157 square feet of living area. The dwelling is approximately 62 years old. Features of the home include a full unfinished basement and a 2-car garage. The property has a 6,700 square foot site and is located in Oak Lawn, Worth Township, Cook County. The subject is classified as a class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity concerning the improvement as the basis of the appeal. In support of this argument the appellant submitted information on three equity comparables with the same assessment neighborhood code as the subject and located from 1.3 to 1.6 miles from the subject. The comparables are class 2-03 properties improved with dwellings of masonry exterior construction ranging in size from 1,144 to 1,429 square feet of living area. The comparables are 53 or 65 years old and have full unfinished basements. One comparable has

central air conditioning and a fireplace. Each comparable has a 2-car garage. The comparables have improvement assessments ranging from \$9,668 to \$12,739 or from \$6.77 to \$9.28 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$18,380. The subject property has an improvement assessment of \$15,030 or \$12.99 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables with the same assessment neighborhood code as the subject and located within a ¼ of a mile from the subject. The comparables are class 2-03 properties improved with 1-story dwellings of masonry exterior construction ranging in size from 1,132 to 1,141 square feet of living area. The dwellings are 58 to 63 years old and have full basements with two having finished area. One comparable has central air conditioning. The comparables each have a 2-car garage. The comparables have improvement assessments ranging from \$15,037 to \$15,202 or from \$13.21 to \$13.38 per square foot of living area.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains seven equity comparables for the Board's consideration. The Board gives less weight to the appellant's comparables which are located over 1 mile from the subject. Furthermore, appellant's comparables #1 and #3 have considerably larger dwelling sizes than the subject and appellant's comparable #2 has central air conditioning which the subject lacks. The Board also gives less weight to board of review comparable #4 which has central air conditioning unlike the subject.

The Board finds the best evidence of assessment equity to be board of review comparables #1, #2 and #3 which are similar to the subject in location, age, dwelling size and features. These comparables have improvement assessments ranging from \$15,037 to \$15,202 or from \$13.28 to \$13.38 per square foot of living area. The subject's improvement assessment of \$15,030 or \$12.99 per square foot of living area falls below the range established by the best comparables in this record. Based on this record and after considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not prove by clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
