

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Joseph Grubaugh
DOCKET NO.: 20-26825.001-R-1
PARCEL NO.: 08-13-209-020-0000

The parties of record before the Property Tax Appeal Board are Joseph Grubaugh, the appellant(s), by attorney Amy C. Floyd, Attorney at Law in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$5,662
IMPR.: \$23,663
TOTAL: \$29,325

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

Appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property is improved with a multi-level dwelling of frame-and-masonry construction containing 1,491 square feet of living area. As of the instant lien date the subject was 62 years old. Features of the home include a formal recreation room basement, central air conditioning, and a two-car garage. The subject has a 8,712 square foot site and is in Mount Prospect, Elk Grove Township, Cook County.

Appellant's appeal is based on assessment equity, and Appellant submitted information on four suggested comparable multi-level dwellings. They are frame, masonry, and frame-and masonry construction. Appellant's comparables have partial formal recreation room basements. Only one has air conditioning. Appellant's comparables range in size from 1,171 square feet to 1,379 square feet of living area and improvement assessments from \$10.40 to \$11.26 per square foot of

living area. As of the lien date, Appellant's comparables ages range from 50 to 63 years old. Each comparable has the same neighborhood code as the subject property, with no further evidence on proximity to subject.

The Cook County Board of Review (BOR) submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment of \$29,325 was disclosed, or \$15.87 per square foot of living area.

The BOR also submitted four equity comparables in support of its final assessment. The properties are described as multi-level dwellings located on the same block as the subject. They are all frame-and-masonry construction. Two have air conditioning. As of the lien date the BOR comparables range from 58 to 62 years old. They all have a formal recreation room basement. The comparables range from 1,219 to 1,392 square feet of building area and have improvement assessments from \$16.58 to \$19.23 per square foot of building area.

Conclusion of Law

Appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill. Admin. Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill. Admin. Code §1910.65(b). The Board finds Appellant *did not meet* this burden of proof and a reduction in the subject's assessment *is not* warranted.

The Board finds the best evidence of assessment equity to be the four BOR comparables. All four comparables are similar to the subject's improvement size. The BOR comparables are all within four years of the age as the subject. All four comparables are frame-and-masonry construction, same as the subject. All four have full formal recreation room basements, same as the subject. Most importantly, the four BOR comparables are located on the same block as the subject. Appellant did not disclose the presented comparables' proximities to the subject.

These four comparables have improvement assessments that range from \$16.58 to \$19.23 per square foot of living area. The subject's improvement assessment of \$15.87 per square foot of living area falls below the range established by the best comparables in this record.

Based on this record, the Board finds Appellant *did not* demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment *is not* justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
