

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Robert Hess
DOCKET NO.: 20-26835.001-R-1
PARCEL NO.: 03-28-403-006-0000

The parties of record before the Property Tax Appeal Board are Robert Hess, the appellant, by Amy C. Floyd, Attorney at Law, in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$5,009
IMPR.: \$46,712
TOTAL: \$51,721

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of frame and masonry exterior construction with 3,195 square feet of living area. The dwelling is approximately 61 years old. Features of the home include a partial basement with a formal recreation room, 3½ bathrooms, central air conditioning, and a 2.5-car garage. The property has an 8,712 square foot site and is located in Arlington Heights, Wheeling Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity concerning the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables located in the same neighborhood code as the subject. The comparables consist of class 2-78 two-story dwellings of masonry or frame and masonry exterior construction. The dwellings range in age from 55 to 59 years old and range in size from 2,870 to 3,322 square feet of living area. The comparables have full or partial unfinished basements, 2 or 2½ bathrooms,

central air conditioning, and a fireplace. The appellant failed to report garage amenities for the subject and comparables but did provide photographs which depict that each comparable has at least a 2-car garage. The comparables have improvement assessments ranging from \$26,136 to \$46,564 or from \$7.87 to \$14.05 per square foot of living area.

Based on this evidence, the appellant requested a reduced improvement assessment of \$44,283 or \$13.86 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$51,721. The subject property has an improvement assessment of \$46,712 or \$14.62 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located in the same neighborhood code and either in the same tax block or within ¼ of a mile from the subject. The comparables consist of class 2-78 two-story dwellings of frame and masonry exterior construction that are each 56 years old. The homes range in size from 2,487 to 2,585 square feet of living area. Each comparable has a partial basement with a formal recreation room, 2½ bathrooms, central air conditioning, and a 2-car or a 2.5-car garage. Three comparables each have a fireplace and comparable #2 has "other improvements" that are not further identified on the record. The comparables have improvement assessments ranging from \$38,515 to \$41,540 or from \$15.04 to \$16.32 per square foot of living area.

Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of eight equity comparables to support their respective positions before the Property Tax Appeal Board. The Board has given reduced weight to the appellant's comparables #2 and #4 as well as the board of review comparables, which are each smaller in dwelling size from approximately 10% to 22% when compared to the subject dwelling.

The Board finds the best evidence of assessment equity in the record to be appellant's comparables #1 and #3, which are each relatively similar to the subject in age, design, dwelling size, foundation type, air conditioning feature and garage. Upward adjustments are necessary to each comparable for inferior bathroom count and lack of basement finish when compared to the subject. The comparables are somewhat each newer in age than the subject necessitating adjustment and each comparable has a fireplace which is not a feature of the subject. The

comparables have improvement assessments of \$26,136 and \$46,564 or of \$7.87 and \$14.02 per square foot of living area. The subject's improvement assessment of \$46,712 or \$14.62 per square foot of living area is slightly above the best comparables in this record both in terms of overall improvement assessment and on a per-square-foot of living area basis which is logical given the subject is superior in bathroom count and finished basement amenity when compared to the comparables.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. The requirement is satisfied if the intent is evident to adjust the taxation burden with a reasonable degree of uniformity and if such is the effect of the statute enacted by the General Assembly establishing the method of assessing real property in its general operation. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill. 2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity which appears to exist on the basis of the evidence.

Based on this record and after considering appropriate adjustments to the best comparables for differences when compared to the subject property, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
