

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Ruben Garcia
DOCKET NO.: 20-27458.001-R-1
PARCEL NO.: 19-28-328-042-0000

The parties of record before the Property Tax Appeal Board are Ruben Garcia, the appellant, by attorney Andrew S. Dziuk, of Andrew Dziuk, Esq. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$4,589
IMPR.: \$18,394
TOTAL: \$22,983

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property is improved with a 2-story dwelling of frame and masonry exterior construction with 2,392 square feet of living area. The dwelling is approximately 15 years old. Features of the home include an unfinished basement, central air conditioning, one fireplace, and a 2-car garage. The property has a 5,563 square foot site and is located in Burbank, Stickney Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on three equity comparables located in the same neighborhood code as the subject. The comparables are improved with 2-story, class 2-78 dwellings of frame and masonry exterior construction ranging in size from 2,024 to 2,640 square feet of living area. The homes range in age from 16 to 62

years old. Two comparables each have a basement, one of which has finished area, and one comparable has a crawl space foundation. Two comparables each have central air conditioning, one comparable has one fireplace, and each comparable has a 2-car garage. The comparables have improvement assessments that range from \$15,003 to \$17,556 or from \$6.65 to \$7.41 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$22,983. The subject property has an improvement assessment of \$18,394 or \$7.69 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables with the same neighborhood code as the subject. The comparables are improved with 2-story, class 2-78 buildings of frame and masonry exterior construction ranging in size from 2,502 to 2,784 square feet of living area. The homes range in age from 15 to 22 years old. Each comparable has an unfinished basement and a 2-car garage. Three comparables each have central air conditioning and one fireplace. The comparables have improvement assessments that range from \$19,252 to \$23,464 or from \$7.35 to \$8.46 per square foot of living area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted seven suggested equity comparables to the Board for consideration. The Board gives most weight to the appellant's comparable #1 and board of review comparable #1 which are more similar to the subject in location, design, age, and dwelling size with varying degrees of similarity in other features. The comparables have improvement assessments of \$17,556 and \$19,252 or \$6.65 and \$7.69 per square foot of living area, respectively. The subject's improvement assessment of \$18,394 or \$7.69 per square foot of living area is bracketed by the two best comparables in this record and is supported. Based on this record and after considering adjustments to the best comparables when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's improvement assessment based on inequity is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
