

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Eliseo Merino Sanchez
DOCKET NO.: 20-27640.001-R-1
PARCEL NO.: 14-06-207-011-0000

The parties of record before the Property Tax Appeal Board are Eliseo Merino Sanchez, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld & Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$15,000
IMPR.: \$19,394
TOTAL: \$34,394

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story, multi-family building of masonry exterior construction with 2,624 square feet of building area. The building is approximately 105 years old and has a full unfinished basement. The property has a 3,750 square foot site located in Chicago, Lake View Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four comparables located within the same neighborhood code as the subject property. The comparables are improved with class 2-11 buildings of masonry exterior construction ranging in size from 4,424 to 4,923 square feet of building area. The buildings range in age from 94 to 97 years old. The comparables have full unfinished basements and central air conditioning. The comparables have

improvement assessments ranging from \$24,116 to \$28,120 and from \$5.02 to \$6.36 per square foot of building area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$14,327 or \$5.46 per square foot of building area.

The appellant also submitted a copy of the Cook County Board of Review final decision for tax year 2020 disclosing the subject has a total assessment of \$34,394. The appellant reported that the subject has an improvement assessment of \$19,394 or \$7.39 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal." In support of its contention of the correct assessment, the board of review submitted information on three comparables located within the same neighborhood code and the same block as the subject property. The comparables are improved with class 2-11, two-story buildings of masonry exterior construction ranging in size from 2,578 to 2,710 square feet of building area. The buildings range in age from 95 to 106 years old and have full unfinished basements. Two comparables have a 2-car or a 2.5-car garage. The comparables have improvement assessments ranging from \$25,734 to \$28,682 or from \$9.68 to \$11.13 per square foot of building area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted seven suggested comparables for the Board's consideration. The Board gives less weight to the appellant's comparables due to their significantly larger building sizes when compared to the subject.

The Board finds the best evidence of assessment equity to be the board of review comparables. These comparables are located on the same block and are identical or very similar to the subject in age, building size, and foundation. However, two comparables each have a garage which is not a feature of the subject. These three comparables have improvement assessments ranging from \$25,734 to \$28,682 or from \$9.68 to \$11.13 per square foot of building area. The subject's improvement assessment of \$19,394 or \$7.39 per square foot of building area falls below the range of the best comparables in this record. After considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
