

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Don Seward
DOCKET NO.: 20-27770.001-R-1
PARCEL NO.: 18-08-315-009-0000

The parties of record before the Property Tax Appeal Board are Don Seward, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld & Associates, LLC in Northbrook; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$7,750
IMPR.: \$48,859
TOTAL: \$56,609

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property is improved with a 1.5-story dwelling of masonry exterior construction with 3,138 square feet of building area. The dwelling is 61 years old. Features of the home include an unfinished basement, central air conditioning, one fireplace, and a 2-car garage. The property has a 10,000 square foot site and is located in Western Springs, Lyons Township, Cook County. The subject is classified as a class 2-04 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables that are located in the subject's assessment neighborhood code. The comparables are described as class 2-04 dwellings of masonry or frame and masonry exterior construction ranging in size from 2,516 to 3,664 square feet of living area. The homes range in age from 51

to 72 years old. Each comparable has a basement with two comparables having finished area, central air conditioning, one or two fireplaces and a 2-car garage. The comparables have improvement assessments ranging from \$40,281 to \$59,022 or from \$14.37 to \$16.11 per square foot of living area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$48,859 or \$15.57 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$61,913. The subject property has an improvement assessment of \$54,163 or \$17.26 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables that are located in the subject's assessment neighborhood code. The comparables are described as 1-story, class 2-04 dwellings of masonry or frame and masonry exterior construction ranging in size from 1,912 to 2,047 square feet of living area. The homes range in age from 59 to 62 years old. Each comparable has a basement with one having finished area, central air conditioning, one or two fireplaces and a 2-car garage. The comparables have improvement assessments ranging from \$34,416 to \$40,178 or from \$18.00 to \$20.50 per square foot of living area. Based on this evidence, the board of review requested that the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The parties submitted eight suggested comparables for the Board's consideration. The Board finds the best evidence of assessment equity to be the appellant's comparables #1 and #2 which are overall more similar to the subject in location, age, dwelling size, and some features. These two comparables have improvement assessments of \$48,380 and \$46,700 or \$14.37 and \$15.77 per square foot of living area, respectively. The subject's improvement assessment of \$54,163 or \$17.26 per square foot of living area falls above the range established by the two best comparables in this record. The Board gives less weight to the parties' remaining comparables due to differences in their dwelling sizes when compared to the subject. Based on this record and after considering adjustments to the best comparables for differences from the subject, the Board finds the appellant demonstrated with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's improvement assessment commensurate with the appellant's request is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
