

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Bourke Properties, LLC
DOCKET NO.: 20-27822.001-R-1
PARCEL NO.: 14-05-103-001-0000

The parties of record before the Property Tax Appeal Board are Bourke Properties, LLC, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld & Associates, LLC in Northbrook; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$14,296
IMPR.: \$49,717
TOTAL: \$64,013

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a three-story building of masonry exterior construction with 6,198 square feet of building area. The building is 105 years old and has an unfinished basement. The property has a 3,108 square foot site and is located in Chicago, Lake View Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables that are located within the same neighborhood code as the subject property. The comparables are improved with class 2-11 buildings of masonry exterior construction ranging in size from 7,290 to 8,760 square feet of building area. The buildings are from 102 to 107 years old, have unfinished basements, and central air conditioning. The comparables have

improvement assessments ranging from \$50,580 to \$62,241 or from \$6.36 to \$7.11 per square foot of building area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$41,898 or \$6.76 per square foot of building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$64,013. The subject property has an improvement assessment of \$49,717 or \$8.02 per square foot of building area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables that are located within the same neighborhood code as the subject property. The comparables are improved with class 2-11, three-story buildings of masonry exterior construction ranging in size from 5,100 to 6,126 square feet of building area. The buildings are from 92 to 114 years old, have unfinished basements and from a 2-car to a 4-car garage. The comparables have improvement assessments ranging from \$41,388 to \$53,124 or from \$8.12 to \$9.16 per square foot of building area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight suggested comparables for the Board's consideration. The Board gives less weight to the appellant's comparables 1, #2 and #4 due to their considerably larger building sizes when compared to the subject.

The Board finds the best evidence of assessment equity to be the appellant's comparable #3 and the board of review comparables. These comparables are more similar to the subject in location, building size, foundation type and some features, except the appellant's comparables have central air condition and the board of review's comparables have a garage, which are not features of the subject property. These five comparables have improvement assessments ranging from \$41,388 to \$53,124 or from \$6.95 to \$9.16 per square foot of building area. The subject's improvement assessment of \$49,717 or \$8.02 per square foot of building area falls within the range established by the best comparables in the record. After considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
