

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Robert Cooper
DOCKET NO.: 20-27874.001-R-1
PARCEL NO.: 14-07-109-012-0000

The parties of record before the Property Tax Appeal Board are Robert Cooper, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld & Associates, LLC in Northbrook; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$17,325
IMPR.: \$29,301
TOTAL: \$46,626

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story, multi-family building of masonry exterior construction with 2,400 square feet of building area. The building is approximately 62 years old. Features of the building include an unfinished basement, central air conditioning, and a 2-car garage. The property has a 4,125 square foot site and is located in Chicago, Lake View Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the subject's improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables located within the same neighborhood code as the subject property. The comparables are improved with class 2-11, multi-family buildings of masonry exterior construction ranging in size from 2,328 to 2,978 square feet of building area. The buildings are

from 97 to 108 years old. The comparables have unfinished basements, central air conditioning and a 2-car garage. The comparables have improvement assessments ranging from \$25,557 to \$32,334 or from \$10.19 to \$11.67 per square foot of building area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$26,040 or \$10.85 per square foot of building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$46,626. The subject property has an improvement assessment of \$29,301 or \$12.21 per square foot of building area. In support of this argument, the board of review submitted information on three equity comparables located within the same neighborhood code as the subject property. The comparables are improved with class 2-11, multi-family buildings of masonry exterior construction ranging in size from 2,200 to 2,892 square feet of building area. The buildings are from 46 to 78 years old. The comparables each have a basement with two comparables having finished area and either a 1.5-car or a 2-car garage. The comparables have improvement assessments ranging from \$31,522 to \$39,013 or from \$13.21 to \$17.73 per square foot of building area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains a total of seven suggested comparables for the Board's consideration. The Board gives less weight to the appellant's comparables and board of review comparable #2 which are considerably less similar to the subject in age and/or building size than the other comparables in the record.

The Board finds the best evidence of assessment equity to be the board of review comparables #1 and #3. These two comparables are more similar in building size and age to the subject property, but still require varying adjustments for differences in features to the subject, such as newer age, basement finish, and/or lack of central air conditioning. Nevertheless, these two comparables have improvement assessments of \$31,522 and \$39,013 or \$13.95 and \$17.73 per square foot of building area. The subject's improvement assessment of \$29,301 or \$12.21 per square foot of building area falls below these two comparables. After considering the appropriate adjustments to the two most similar comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement is inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
