

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Ian Carswell  
DOCKET NO.: 20-27899.001-R-1  
PARCEL NO.: 14-20-405-024-0000

The parties of record before the Property Tax Appeal Board are Ian Carswell, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld & Associates, LLC in Northbrook; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$15,488  
**IMPR.:** \$35,825  
**TOTAL:** \$51,313

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a two-story, multi-family building of masonry exterior construction with 2,252 square feet of building area. The building is approximately 120 years old and has a basement with finished area. The property has a 2,420 square foot site located in Chicago, Lake View Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables that are located within the same neighborhood code as the subject property. The comparables are improved with class 2-11 buildings of masonry exterior construction ranging in size from 2,302 to 2,996 square feet of building area. The buildings are 105 or 115 years old and have unfinished basements and central air conditioning.. The comparables have improvement

assessments ranging from \$33,084 to \$46,076 or from \$12.50 to \$15.38 per square foot of building area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$32,316 or \$14.35 per square foot of building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$51,313. The subject property has an improvement assessment of \$35,825 or \$15.91 per square foot of building area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables that are located within the same neighborhood code as the subject property. The comparables are improved with class 2-11 buildings of frame or masonry exterior construction ranging in size from 1,980 to 2,954 square feet of building area. The buildings range in age from 115 to 130 years old. The comparables have basements with one having finished area. One comparable has central air conditioning, and two comparable each have a 2-car garage. The comparables have improvement assessments ranging from \$35,867 to \$58,548 or from \$16.18 to \$20.95 per square foot of building area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight suggested comparables for the Board's consideration. The Board gives less weight to the appellant's comparables #1, #2 and #4 as well as the board of review comparables #1 and #2 due to their larger building sizes when compared to the subject.

The Board finds the best evidence of assessment equity to be the parties' remaining comparables. These three comparables are closer in building size to the subject and also similar to the subject in location, age and other features. The comparables have improvement assessments ranging from \$34,990 to \$39,787 or from \$15.20 to \$19.66 per square foot of building area. The subject's improvement assessment of \$35,825 or \$15.91 per square foot of building area falls within the range of the most similar comparables in this record. After considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
