

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Patrick White
DOCKET NO.: 20-28823.001-R-1
PARCEL NO.: 18-09-113-005-0000

The parties of record before the Property Tax Appeal Board are Patrick White, the appellant, by attorney Ellen G. Berkshire, of Verros Berkshire, PC in Oakbrook Terrace; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds No Change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$5,227
IMPR.: \$30,396
TOTAL: \$35,623

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of frame and masonry exterior construction with 1,945 square feet of living area. The dwelling is approximately 84 years old. Features of the home include an unfinished basement, one fireplace and a 1-car garage. The property has a 6,150 square foot site and is located in La Grange, Lyons Township, Cook County. The subject is classified as a class 2-05 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables that have different assessment neighborhood codes than the subject and are located from 1.9 to 6.1 miles from the subject property. The comparables are improved with class 2-05, 2-story dwellings of frame and masonry exterior construction ranging in size from 1,946 to 1,960

square feet of living area. The dwellings are from 64 to 71 years old. Each comparable has a crawl space or concrete slab foundation and a 2-car garage. Three comparables each have central air conditioning, and one comparable has one fireplace. The comparables have improvement assessments that range from \$14,678 to \$17,742 or from \$7.53 to \$9.12 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$16,338 or \$8.40 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$35,623. The subject property has an improvement assessment of \$30,396 or \$15.63 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables that have the same assessment neighborhood code as the subject and are located approximately $\frac{1}{4}$ of a mile from the subject property. The comparables are improved with class 2-05, 2-story dwellings of masonry or frame and masonry exterior construction ranging in size from 1,510 to 2,079 square feet of living area. The dwellings are 67 to 91 years old. The comparables each have an unfinished basement, one fireplace and a 1-car or a 2-car garage. Two comparables each have central air conditioning. The comparables have improvement assessments that range from \$30,868 to \$47,653 or from \$18.20 to \$23.47 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of eight comparable properties for the Board's consideration. Seven of the comparables have dwellings that range in age from 64 to 72 years old when compared to the 84-year-old age of the subject dwelling. The Board has given less weight to the appellant's comparables which are less proximate in location to the subject than the board of review's comparables and have dwellings that lack a basement, unlike the subject. The Board also gives less weight to the board of review comparable #2 due to its smaller dwelling size when compared to the subject.

The Board finds the best evidence of assessment equity to be the board of review comparables #1, #3 and #4. These comparables are similar to the subject in location and foundation type, but have varying degrees of similarity to the subject in age, dwelling size and other features. These three comparables have improvement assessments ranging from \$30,868 to \$47,653 or from \$18.20 to \$23.34 per square foot of living area. The subject's improvement assessment of \$30,396 or \$15.63 per square foot of living area falls below the range established by the best

comparables in the record. Additionally, the subject's improvement assessment falls below the board of review comparable #3 that is most similar to the subject in overall property characteristics but has a dwelling that is older in age and smaller in dwelling size than the subject. Based on this record and after considering adjustments to the comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
