

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Ruben Garcia
DOCKET NO.: 20-28839.001-R-1
PARCEL NO.: 19-28-328-041-0000

The parties of record before the Property Tax Appeal Board are Ruben Garcia, the appellant, by attorney Eric Feldman, of Eric Feldman & Assoc. P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$4,590
IMPR.: \$9,987
TOTAL: \$14,577

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 1-story dwelling of frame exterior construction with 1,212 square feet of living area. The dwelling is approximately 72 years old. Features of the home include a slab foundation, one fireplace and a 2-car garage. The property has a 5,564 square foot site and is located in Burbank, Stickney Township, Cook County. The subject is classified as a class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity concerning the improvement as the basis of the appeal. In support of this argument the appellant submitted information on five equity comparables with the same assessment neighborhood code as the subject. The comparables are class 2-03 properties improved with 1.5-story or 1-story dwellings of wood exterior construction ranging in size from 1,124 to 1,448 square feet of living area. The comparables are 63 to 68 years old and have crawl space or slab foundations. Two comparables have central air

conditioning. Each comparable has one fireplace. Four comparables each have a 1.5-car, a 2.5-car, or a 3-car garage. The comparables have improvement assessments ranging from \$4,133 to \$8,165 or from \$3.68 to \$5.75 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$14,577. The subject property has an improvement assessment of \$9,987 or \$8.24 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on three equity comparables with the same assessment neighborhood code as the subject. The comparables are class 2-03 properties improved with 1-story dwellings of frame exterior construction with either 1,032 or 1,046 square feet of living area. The dwellings are 51 to 64 years old with one having a full basement and two having crawl space foundations. Each comparable has a 1-car or a 2-car garage. The comparables have improvement assessments ranging from \$12,203 to \$13,505 or from \$11.82 to \$13.09 per square foot of living area.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains eight equity comparables for the Board's consideration. The Board gives less weight to appellant's comparable #5 which is an outlier due to its lower improvement assessment in relation to the other comparables submitted by the appellant. The Board gives less weight to appellant's comparables #1, #2 and #4 which are dissimilar in style and/or have central air conditioning when compared to the subject. The Board gives less weight to board of review comparable #1 due to difference in age and foundation type when compared to the subject.

The Board finds the best evidence of assessment equity to be appellant's comparable #3 and board of review comparables #2 and #3 which are relatively similar to the subject in location, age, dwelling size and some features. These comparables have improvement assessments ranging from \$8,165 to \$12,486 or from \$5.64 to \$11.94 per square foot of living area. The subject's improvement assessment of \$9,987 or \$8.24 per square foot of living area falls within the range established by the best comparables in this record. Based on this record and after considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not prove by clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
